IT MANAGED SERVICES

Service Definition

G-Cloud 15

January 2026

Supporting your workforce with
secure, scalable, and proactive IT

Service Introduction

Core Value Proposition

Stadia offers secure, scalable, and proactive managed IT services to reduce downtime and enhance security posture.

Strategic Partnership

Stadia acts as a strategic partner providing enterprise-grade solutions beyond basic IT support.

Flexibility and Expertise

Services adapt to client needs with highly skilled professionals ensuring innovation and trust.

Built on Experience. Delivered with Confidence.

Certifications and Partnerships

Microsoft Gold Partner status and rigorous adherence to industry standards validate Stadia's technical excellence.

Enterprise Governance and Compliance

Strong governance approach ensuring ISO standards and security frameworks compliance for client assurance.

Flexible and Scalable Solutions

No restrictive per-user contracts with scalable solutions that adapt to client business growth seamlessly.

Strategic Client Engagement

Quarterly vCIO reviews and monthly performance meetings ensure proactive guidance to align technology with business goals.

Our services
scale as your
business grows,
flexing around
your needs.

At Stadia, our managed services heritage is founded on the delivery of exceptional IT support. As organisations continue to grow and technology landscapes become more complex, expectations on IT services are higher than ever.

Stadia Managed Services go beyond traditional support models, delivering a high performing, multi channel service desk, proactive infrastructure management, and enterprise grade security - ensuring reduced downtime, increased resilience, and improved employee productivity.

Whether you are modernising an outdated IT support model or augmenting an in-house team, Stadia provides the expertise, capacity, and strategic insight to help your business perform at its best.

Who It's For

Our managed services are ideal for organisations that:

- Want to outsource all or part of their IT operations
- Require consistent, high-quality support across cloud, hybrid, and on-premise environments
- Operate in regulated or security focused sectors
- Need flexibility without long-term per user lock in
- Want strategic technology guidance without employing a full time CTO

Core Services

Managed IT Support

Offers multi-channel service desk support, remote and on-site assistance, handled by expert 1st and 2nd line engineers or above.

Infrastructure & Network Management

Provides 24/7 proactive monitoring and performance optimisation across cloud, hybrid, and on-premise environments.

Cyber Security & Data Protection

Utilises enterprise-grade security tools, Zero Trust, identity management, and robust backup and disaster recovery systems.

Key Benefits

Tailored Delivery Model

Clients specify their needs and receive a customised managed service designed to meet those requirements precisely.

Engagement and Governance

Onboarding, proactive monitoring, and regular reviews ensure structured governance and continuous strategic input.

Strategic Interaction

Quarterly vCIO-level strategy sessions and monthly performance meetings distinguish Stadia's consultative approach.

Measurable Benefits

Improved productivity, reduced downtime, proactive issue prevention, enhanced security, and expert access deliver clear value.
