

Global System Integration: Transforming Businesses with Seamless Connectivity

The global system integration market, valued at \$436 billion in 2024, is projected to grow at a CAGR of 10% between 2025 and 2034. This growth is driven by cloud migration, enhancing scalability, cost efficiency, and security while reducing on-premises reliance. System integration ensures seamless interaction across IT landscapes.

ACS system integration expertise delivers with speed, agility, and efficiency.

Key Benefits

Improve API quality: With AI that helps you remediate errors and security and governance features that instill peace of mind, API Connect raises the bar on performance.

Streamline development: An intuitive user experience makes it simple to build, discover and reuse APIs. AI handles routine work, allowing developers to focus on innovation.

Scale with confidence: APIs facilitate consistency, empowering you to seamlessly integrate with third-party services and experiment with new technologies.

Cost Optimisation: Dynamically reduce cloud and infrastructure spend using AI resource recommendations.

Industries & Applications

Transportation & Logistics: Integrated B2B and B2C logistics solutions for warehouse management, port handling, advanced passenger information systems, and centralised command centres.

Manufacturing: Comprehensive automation with integrated supplier and customer solutions, enhanced governance, and digital manufacturing workflows.

Healthcare : Automated facility management, sustainable healthcare practices, and enhanced patient experience through integrated systems.

Retail & E-Commerce: Smart shopping experiences with EPOS, aisle analytics, theft detection, and guided in-store navigation.

Finance & Banking: AI/ML-driven FinTech solutions for capital investments, insurance operations, secure banking, and M&A data management. data management.

OUR USP

- **ERP Integration:** Implementation experience in Procure-to-Pay (P2P), Order-to-Cash (O2C), Case Management, HR/HCM systems.
- **MTD (Make Tax Digital):** Digitally compliant tax integration solutions for finance and accounting systems.

Partner with ACS

ACS delivers tailored, scalable system integration solutions to modernise your IT infrastructure, improve interoperability, and drive operational excellence.
