

G-Cloud 15

BRUHATI CLOUD SOFTWARE SERVICES

G-CLOUD 15 SERVICE DEFINITION

BRUHATI SOLUTIONS LTD

SHORT SERVICE DESCRIPTION

Bruhati's offering of Cloud Software services offer a comprehensive list of cost-effective cloud solutions to enable Digital Business & IT Transformation programmes. Bruhati are Bizzdesign and Aris partners and have extensive experience with reselling and deploying the following SaaS applications from these software vendors:

- ✓ **Bruhati offering of Bizzdesign Alfabet - automated, data-driven SaaS for Enterprise Architecture** offers you IT planning & portfolio management and enterprise architecture management. Highly rated by the analysts, Alfabet helps organisations make the right investment decisions in IT by understanding their current IT investments and collaboratively planning the future.
- ✓ **Bruhati offering of Bizzdesign Horizzon - Enterprise Architecture SaaS platform** helps organisations with investment prioritisation, transformation delivery and risk management; presenting multi-dimensional visualisations of the design and transition path to the targeted future.
- ✓ **Bruhati's offering of ARIS Process Intelligence Cloud**, a market leader in full-scale Business Process Analysis and Management (BPA & BPM). ARIS allows to design, improve, analyse, share and collaborate around business processes. ARIS supports continuous improvement and operational excellence by combining process management, process intelligence, process mining, and automation.

OVERALL SERVICE BENEFITS

Our **Cloud Software services** aim to deliver value and benefits by defining a tailored service offering ensuring alignment with your organisation's Vision & Strategy, realisation of market potential, minimising change and risk with measurable outcomes, and addresses Total Cost of Ownership (TCO) and positive Return on Investment (ROI).

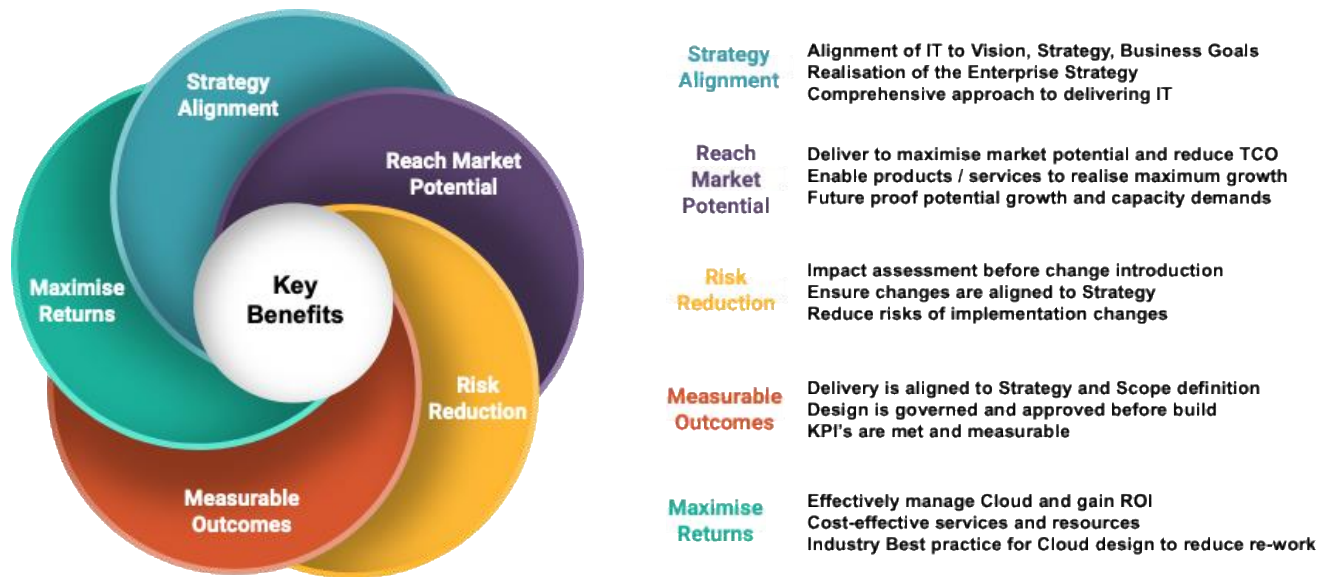

Figure 1 Overall Service Benefits

OVERALL SERVICE DEFINITION

Bruhati offering of **Cloud Software services** ensure clients have a comprehensive Strategy and adoption roadmap of Cloud Software as a Service. The use of cloud will promote business agility, accelerate time to market, reduce costs & risks and help to expand in new markets. Initiatives range from enhancing existing IT services to the cloud or the creation of a new fully cloud-based offering. Our Cloud Software services help with applications that are accessed over the internet and hosted in the cloud. We have experience across public, hybrid and private clouds, having successfully implemented SaaS solutions across many clients and industries in the public and private sector. Our Cloud Software services are intended to help clients develop successful Cloud Software solutions quickly regardless of what stage the programme is at.

ABOUT BRUHATI

Bruhati Solutions Ltd is a boutique UK consultancy that specialises in **Enterprise Architecture, AI Governance and AI Solutions**. We bring a wealth of expertise to implement effective Enterprise Architecture and EA tools for our public and private sector customers across EMEA. We are Bizdesign & Aris partners and have extensive experience with reselling and implementing these solutions.

We have a portfolio of case studies that showcase our experience in delivering Enterprise Architecture, EA tools and solutions for organisations across many industries. Here are some of the highlights:

- **British Army:** We provided EA tool implementation assurance of Alfabet, strategic business process and EA repositories, end to end tooling integration.
- **South London & Maudsley NHS Foundation Trust:** We implemented the Alfabet EA tool.
- **ICO:** We resold and implemented an EA SaaS platform and provided end user training via G-Cloud.
- **Alzheimer's Society:** We resold an EA SaaS platform license to this charity through G-Cloud.
- **Notting Hill Genesis Housing Association:** We resold an EA SaaS platform license to this charity through G-Cloud.
- **NHS Blood & Transplant:** We provided digital strategy, EA function implementation, EA tooling introduction, and EA and SA managed service for core national programmes, such as COVID-19.
- **Major Irish Transportation operator:** We implemented EA operating model, EA tooling introduction of Alfabet & Aris, EA and SA managed service for core strategic programmes across the group.
- **Major FS&I:** We implemented EA operating model, EA tooling introduction of Alfabet, EA and SA managed service for core strategic programmes across the group.
- **Major UK Pension Fund:** We introduced Alfabet EA tooling, EA operating model redesign and implementation, EA office managed service.
- **Major UK Mobile operator:** We led the Architecture and Design for Digital Transformation programmes for all the Smart Metering project in the UK. We also designed their most complex Cloud solutions.

OUR TEAM

We have an incredibly talented, experienced, and diverse team who are the experts at what they do.

- ✓ **Experience:** 25 plus years delivering Enterprise Architecture, Solution Architecture, and Business Architecture consulting and solutions
- ✓ **Region:** Full time consultants delivering across EMEA both onsite and remote.
- ✓ **Roles and Responsibilities:** Enterprise Architects, Solution Architects, Business Architects, Data Architects, Infrastructure Architects, Business Analysts, EA Tools SME's, Trainers, Support Specialists, Testers, Project Managers
- ✓ **Domain Knowledge:** Ardoq certified, TOGAF certified, SAFe certified, Certified AI Practitioners, BPMN 2.0, ArchiMate, and Industry specific methodologies.
- ✓ **Industries:** UK Public sector: Healthcare, Defence. Ireland Public sector: Transportation. Private sector: Financial Services & Insurance, Telecoms, Transportation, Oil & Gas.

VALUES

We deliver quality innovative Cloud services through our shared company values of:

- ✓ **Trust** – We form long lasting relationships with our clients through trust and respect
- ✓ **Integrity** – We uphold the highest levels of integrity for all our actions
- ✓ **Commitment** – We are fully committed to ensuring we deliver quality work on time, every time

We pride ourselves on:

Experience: A proven track record in helping clients move to cost-effective Cloud based solutions that provides ROI along with a quick time-to-market.

Quality: We put our clients first by listening to their needs to understand what the best Cloud solution for their organisation is.

Cost: We are extremely competitive with our rates and our service offering is tailored to meet your budget requirements. We can quickly identify costs and complexity drivers for moving existing services to the Cloud.

Agility: Our teams can engage quickly, react fast, and are up and running to support your organisation's needs.

Location: We are ready to work in any location with our Near-Shore service delivery model to reduce cost and maximise efficiency.

Diversity: This is important amongst our teams as we understand everyone is their own person and they offer different ideas.

Innovation: Highly focussed teams who embrace new technologies, frameworks, and tools. We are lifelong learners!

Support: Every project is supported by our Architecture Centre of Excellence that provides support to all our clients and consultants. Providing the necessary knowledge transfer for self-sufficiency.

Secure: Bruhati is [Cyber Essentials](#) & IASME Governance certified and takes information & security management very seriously.

Resourcing: Our agile teams work on programmes of all sizes, and we can scale up and down our resource on-demand.

BRUHATI CLOUD SOFTWARE SERVICES

We are experts in supporting you through your Software as a Service (SaaS) adoption journey of Enterprise Architect & Process Intelligence platforms. Our experienced and certified Architects can help you to Architect, Deploy, Setup and Integrate the following SaaS services within your organisation:

- **Bizzdesign Alfabet Cloud** offers you IT planning & portfolio management and enterprise architecture management. Highly rated by the analysts, Alfabet helps organisations make the right investment decisions in IT by understanding their current IT investments and collaboratively planning the future.
- **Bizzdesign Horizzon Cloud** is a leading Enterprise Architecture (EA) platform. It helps organisations with investment prioritisation, transformation delivery and risk management; presenting multi-dimensional visualisations of the design and transition path to the targeted future.
- **ARIS Process Intelligence Cloud** is a full-scale Business Process Analysis-as-a-Service product. It allows to design, improve, analyze, share and collaborate around business processes from small to large numbers of users within an organisation and across organization borders.

NEXT STEPS
