Below is the first level in PDF form

Your Blue Prism Cloud 2026 platform

Blue Prism Cloud 2026 is the full Platform-as-a-Service (PaaS) solution from SS&C | Blue Prism. This platform is provisioned from the cloud and delivers products from the full portfolio of SS&C | Blue Prism software pre-built and configured for your use, including the digital workers.

Blue Prism Cloud has been independently audited and is fully certified to SOC 2 (type II). SOC 2 (System and Organization Controls 2) is an internationally recognized compliance standard for service organizations, which specifies how organizations should control, manage, and protect customer data. The standard is based on security, availability, processing integrity, confidentiality, and privacy trust criteria. Further information can be found here: https://soc2.co.uk.

Available in Blue Prism Cloud 2026

SS&C | Blue Prism® 7.5	The version of SS&C | Blue Prism's RPA software solution reduces the complexity and risk of upgrading, allows users to automate browsers seamlessly without relying on browser extensions, and enables integration with external systems more efficiently. Full release notes for all Blue Prism Enterprise version 7 releases are available here.
SS&C | Blue Prism® Hub 5.1	Hub provides secure access to management information and user administration. Hub has been created as a lightweight application populated by a series of plugins and features, including Hub Control Room, SS&C | Blue Prism Interact, SS&C | Blue Prism Decision, and SS&C | Blue Prism Automation Lifecycle Management.
SS&C | Blue Prism® Interact 5.1	Interact provides a collaboration interface that enables organizations to involve users in parts of a process that are otherwise automated. Interact is a customizable web portal that can be used within your organization and accessed via a browser from any computer on your corporate network. Interact serves as both an interface between human and digital workers for data input by the user, and a presentation layer for any information that needs to be displayed to a user.
	The Interact plugin within Hub enables automation developers to create web-based forms that allow users to provide additional inputs that will be used in automations via the Interact web application.
SS&C | Blue Prism® Automation Lifecycle Management 5.1	Automation Lifecycle Management is a plugin within Hub that enables business analysts to capture and document their organization's business process definitions along with the applicable applications and any business exceptions.
	Wireframer is supplied within the ALM plugin. Wireframer enables the user to efficiently define business objects that can be used as part of an automation process.
SS&C | Blue Prism Hub Control Room 5.1	Hub Control Room is a plugin within Hub that provides users with the ability to view and manage activity for all their Blue Prism environments. Hub Control Room requires Blue Prism Enterprise, the Blue Prism API, and Authentication Server.
SS&C | Blue Prism Decision 5.1	Decision is a plugin within Hub that includes a Model Service API and provides Blue Prism users with the ability to train and deploy intelligent machine-learning decision-making models within their automations, without requiring any data science expertise.

SS&C | Blue Prism® Director 1.0.3	Director is plugin within Hub that enables automation developers to align business metrics to their varied workloads, driving priorities and service level agreements (SLAs) to determine the order in which individual queue items are executed.
OCR	OCR manages the extraction and translation of information from document images into machine usable data using optical character and image recognition approaches.
