Platform pricing

BeaurostImpact pricing is based on the number of named users on the platform. Pricing uses **cumulative user bands**, meaning each price level applies only to the users within that band.

There is a **minimum subscription of 5 users**.

How user bands work

- The **first 5 users** are priced at **£6,000 per user per year**
- **Users 6–10** are priced at **£5,200 per user per year**
- **Users 11–20** are priced at **£4,100 per user per year**
- **Users 21–30** are priced at **£3,100 per user per year**
- **Users 31–50** are priced at **£2,300 per user per year**
- **Each user above 50** is priced at **£2,000 per user per year**

User bands are cumulative: as you add users, only the *additional* users are charged at the lower band rate.

All prices are **exclusive of VAT**.

Example

A **12-user subscription** would be priced as:

- 5 users × £6,000
- 5 users × £5,200
- 2 users × £4,100

Total: £64,200 per annum, exclusive of VAT.

Contract length

- All prices shown are **per annum**.
- All prices shown apply to **each year of a standard 24-month contract**
- **12-month contracts** are available at a **5% uplift** on the annual subscription price
- **36-month contracts** are available at no uplift on the annual subscription price, i.e. locking in current pricing for a longer term

What's included

- Dedicated training and support (online and onsite) is included with all subscriptions

The table below shows the annual per-user price in each band, and the maximum total cost of fully utilising that band.
