

Commercial Overview

1. The price for a standard Patient Link website is £1,000 + VAT per practice instance per annum. This includes the provision of all services as outlined within our standard service specification.
2. We are continuously innovating and adding new features to our platform in line with NHSx contractual guidance and emerging technologies. This is covered under our standard licence agreement and there are no additional costs associated with this.
3. All prices quoted are exclusive of VAT.
4. Price includes all project management, setup and rollout, hosting, training and support costs.
5. Bespoke requirements outside of the framework of a practice website are reviewed and quotation provided on a case-by-case basis.
