Accompanying Notes

Tiered Pricing Structure:
CoComply's enterprise pricing model is designed to scale with suppliers.

Inclusive Services:
Clients committing on an enterprise contract benefit from additional value-added services, including:

- **Initial supplier** on-boarding set up
- **Platform Training** – All tiers include platform training to ensure smooth onboarding and effective system use.
- **Classification Training –** Keeping teams updated on classification rules and compliance.
- **Technical Set-up Support –** Inclusive days for technical set-up, depending on spend tier.
- **Technical Account Management –** Dedicated support for ongoing optimisation and strategic guidance.

Pricing Terms:

- Subject to agreement to CoComply's standard terms and conditions

Suppliers:

- A supplier is any supply within the supply chain including larger entities, agencies, contractors, sole traders.

This model provides organisations with cost-effective compliance solutions, ensuring seamless workforce management at scale.

CoComply. Additional Enhanced Services

CoComply offers expert services to supplement our next-generation technology. Organisations often require advanced training for stakeholders, periodical audits, or an escalation service to Status Experts where a classification is undetermined or internal resources are limited. Services are delivered by CoComply or trusted partners, ensuring high-quality support tailored to your needs. Contact Sarah at sarah.socha@cocomply.co.uk for more information.

Additional Enhanced Services	Description
Integration	Seamlessly integrate CoComply Classify with your internal finance, procurement, VMS, HR, or talent systems for streamlined workforce classification and compliance management. Our technology team can support with process architecture, custom builds and required integrations.
Up-front Role-Based Classifications	Initial assessments to classify common roles, ensuring consistency in future assessments. Conducted by market leading subject matter experts.
Advanced Training	Specialist, advanced training to develop in-house expertise, improve organisation maturity, and reducing external escalations needs.
Periodic Audits	Regular compliance reviews focusing on high-risk roles to maintain workforce classification standards.
Escalation Service	Access Employment Status Experts in-platform for complex classification cases or when internal resources are limited.
SoW Auditing & Report	Batch review of SoWs to analyse service categorisation, service classification, role types, contract structures, and supplier makeup.
Vendor Auditing & Clean-Up	Assess and categorise vendors based on service type, skills, and supply chain role, ensuring compliance.
Consultancy	Expert classification and compliance support, available on a day rate or fixed-fee basis.
