

Clinical Guardian

G-Cloud 15 Pricing Document February 2026

Clinical Guardian Service Summary

- **The Service Offer**

- Clinical Guardian (CG) is a cloud-hosted Software-as-a-Service (SaaS) solution developed by Applied Healthcare Solutions Ltd to support clinical audit and governance activity. It applies a structured methodology for auditing care and is delivered through a web-based application designed with clinical input, focused on the best outcomes for patients.
- The Service includes training, configuration, account management and technical support, throughout the contract.

- **The Clinical Drivers**

- CG addresses the Governance and Audit requirements within the Health & Social Care Act.
- CG responds to the governance standards set out by the Care Quality Commission.
- CG assures patient care through appropriate risk management.
- CG provides a collaborative tool with active feedback to support clinician decision making.

- **The Solution Benefits**

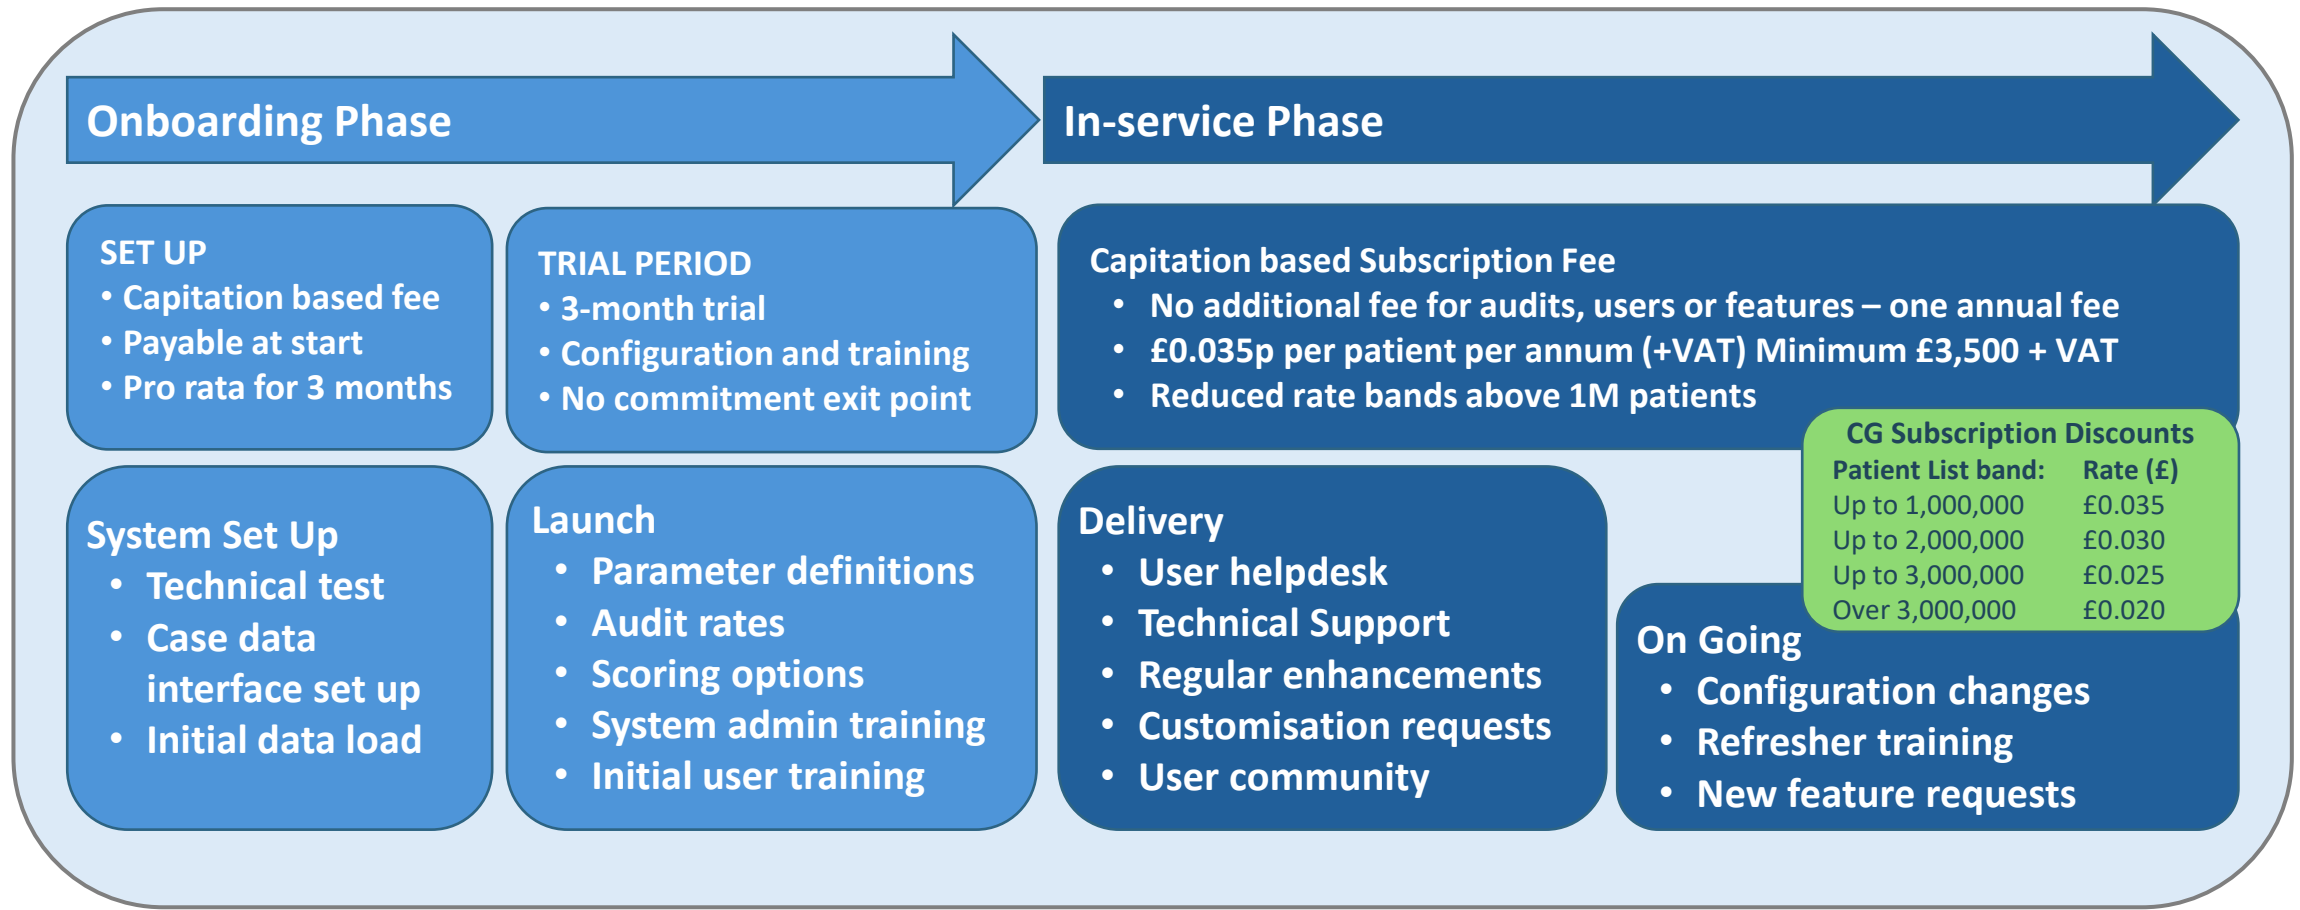

- A fully tailorable system to meet the specific needs of your organisation.
- Efficient and effective governance, saving time and expediting audit insights.
- Reduced auditor costs and clinical effort released to other vital work.
- Measurable results inform continuous improvement.

Clinical Guardian Annual Subscription

Notes on the Clinical Guardian Price Model

- The fee is based on the patient population that the customer healthcare provider serves.
- The patient capitation figure is to be agreed between the parties.
- The licence includes all use of Clinical Guardian in connection with either Urgent Primary Care or Routine Primary Care, not both as these care settings are licenced separately.
- Where both licences are required, a discount may apply.
- The subscription fee is subject to annual inflation inline with the ONS CPI Index.
- A multi-year contract can be offered with favourable terms:
 - The price can be discounted by:
 - 2% for a 2-year contract
 - 5% for a 3-year contract
 - 5% for a 4-year contract
 - 8% if the call-off Optional Extension Period is used.
 - Inflation can be fixed at a reduced rate of 2% per annum for 2, 3 and 4-year contracts.

Clinical Guardian Price Model for G-Cloud 15

Clinical Guardian

Subscription Capitation Rate Discounts Table

Capitation (patients)	Rate (£)
Up to 1,000,000	£0.035
Up to 2,000,000	£0.030
Up to 3,000,000	£0.025
Above 3,000,000	£0.020

Table 1: Graduated capitation rate for larger patient populations.

Notes on capitation rates:

- 1. The subscription fees calculated at the rates in the above table are cumulative.
- 2. This means that the upper discounted rates apply to that part of the patient population that exists above the previous band. For example, a population of 1.2M patients will incur a fee based on 1,000,000 patients at £0.035 plus 200,000 patients at £0.030.

Clinical Guardian Annual Subscription Notes

Onboarding

Installation, configuration and training is inclusive in the above price when delivered during the standard 3-month onboarding programme.

Non-standard configuration may be chargeable according to the rates below.

Any agreed bespoke software changes will be chargeable at the rates below.

AHS reserve the right to charge for additional training at the rates below.

Minimum Term

The minimum contract period is 12 months including the 3-month onboarding programme.

The initial contractual commitment is for the 3-months of the onboarding programme, allowing the customer to fully assess the product for their purposes. There is no commitment beyond 3 months. If the customer decides to continue using the product beyond the onboarding programme period of 3-months, then the agreed 1-, 2-, 3- or 4-year contract period will apply.

Discounts are applicable to contract terms of 2 or more years.

Exit costs

There is no cost associated with contract termination in accordance with the terms of the Agreement. A charge may be agreed between the parties if extended read-only access is required to the data beyond the contract end date.
