

Risk Ledger, Vendor Risk Management and Supply Chain Security Platform Pricing

Pricing document

Lot 2b - Cloud Software

Our annual licence fee is simple, it provides you with full access to the platform for 10 users and you are able to review 750 suppliers.

All fees quoted are subject to clients agreeing to Risk Ledger's standard terms and conditions.

Enterprise style deals and time limited discounts may also be available.

Contract Length	Licence Fee Per annum
2 Years Minimum	£150,000 p.a.

What does the licence include?

The enterprise licence fee will allow users full access to the Risk Ledger platform. Also included in the licence fee will be:

- Implementation of the tool.
- Training.
- Ongoing support and a dedicated customer success resource.
- All suppliers can use the Risk Ledger platform free of charge.
- The ability to map out your supply chain and flag concentration risks.
- Respond to incidents and emerging threats.
- Customisable and automated reporting to support audits.
- Optional - Membership to your associated public sector community. This will allow you to share information and risk insights with each other.

Enterprise style deals and time-limited discounts may be available.

Additional modules and add-ons (not included in the standard licence):

- External Monitoring is charged at £25k per year;
- Additional users are charged at £3.5k per user, per year;
- Additional suppliers are charged at £200 per supplier;
- The Financial Risk Domain can be added for £5k per year; and
- The ESG Risk Domain can be added for £5k per year
- The UK Government Data & Personnel Security Domain can be added for £5k per year
