G-Cloud 15

Healthcare Cloud Price List

Pricing for Healthcare Cloud Modules

Welcome to the pricing overview for Vatix's Healthcare Cloud, designed to help healthcare and care providers effectively manage all aspects of healthcare operations and patient safety.

Our solution is modular, allowing you to select only the modules you need: Incident and Event Management, Risk Management, Compliance and Regulatory Management, Patient Safety Initiatives, Document and Policy Management, Audit and Surveys, Workforce Compliance, and Advanced Analytics.

Pricing is based on the number of full-time equivalents (FTEs) in your organisation. Your FTE count determines your total licence allocation, split as follows: 20% as Admin/Manager licences (full platform access for those managing workflows and oversight) and 80% as Lite User licences (for frontline staff submitting data and completing assigned tasks). This structure ensures your management team has the tools they need while keeping costs efficient for your wider workforce.

Please note that prices listed do not include setup and implementation fees. For these services, please refer to the SFIA rate card and consult with a Vatrix representative to define your implementation scope.

G-Cloud 15 Price List			
Price Per Module	FTE - Lower Bound	FTE - Upper Bound	Subscription Price (annual)
