Recommended Product Pricing <i>VAT is not applicable</i>	£24 per user / month	Contact us for a tailored quotation
---	----------------------------	---

Recording Options
(Capture dictations quickly and securely from any environment)

Recording via web browser	✓	✓
Recording via smartphone app (iOS & Android)	✓	✓
Smartphone Offline Recording Capability	✓	✓
Upload from portable voice recorders (e.g., Philips/Olympus)	✓	✓

Speech Recognition Options- Our next-generation AI speech recognition goes far beyond simple transcription. It understands grammar, context, and sentence flow, automatically applying punctuation, structure, and paragraph spacing. Using an AI Language Model overlay, it transforms raw dictation into a fully formatted, contextually rich, and clinically accurate document, instantly ready for review or distribution, eliminating the need for manual correction, editing, or formatting by clinicians or administrative staff.

Automatic Speech Recognition	+ £15.00 per user /month	✓
Front End Speech Recognition	✓	✓
Multi-party Speak Diarisation	✓	✓

User Access & Hardware
(Flexible tools and licences to match different roles)

Author Licence	✓	✓
Admin/Typist Licence (optional add-on)	✓	✓
Foot Pedal Configured	✓	✓

Workflow & Collaboration
(Improve workflow efficiency and collaboration between authors and support staff)

Workflow capability	✓	✓
Clinic appointment list	–	✓
Multiple signatories	✓	✓
Electronic sign-off	✓	✓
Automated document distribution	–	✓
Address book	✓	✓
Document management	✓	✓
Post-approval/audit review	✓	✓
Job management & overview	✓	✓
