IMPLEMENTATION AND ANNUAL LICENSE PRICING

Onboarding: Pricing is based on a fixed implementation fee covering deployment, configuration, training, and IG activities. **£20,000**

ANNUAL LICENSE (PER-PATIENT PRICING)

The annual licence fee is calculated based on the number of patients actively supported by the service during each contract year.

An active patient is defined as a patient supported by the service at any point during the contract year.

Patients are counted once per contract year, regardless of discharge or re-referral.

Unit pricing reduces as patient numbers increase in accordance with the bands below.

Active annual patients	Unit cost
1 - 7,500	7
7,501 - 15,000	6
15,001 - 25,000	5
25,001 - 50,000	4.5
50,001+	4.25

The applicable unit price is determined by the total number of active patients supported within the contract year and applies to all patients for that year.

INVOICING AND RECONCILIATION

An estimated annual licence value will be agreed at contract commencement based on anticipated patient volumes.

The estimated annual value will be invoiced quarterly in advance, with each invoice representing one quarter of the estimated annual charge.

Actual patient numbers will be confirmed at the end of the contract year and the total annual charge reconciled accordingly. Any over- or under-payment will be adjusted through a credit or balancing invoice.

No additional in-year charges will be applied outside the agreed quarterly invoices unless expressly agreed in writing.

ADDITIONAL COSTS

The following additional charges will apply
1)DIVA-5 Assessment: £6 per completed assessment

ADDITIONAL CUSTOMISATION

Minor configuration and standard setup activities are included.

Additional configuration or change requests outside the standard service scope may be provided subject to agreement and charged at £800 per day*
