Pricing Document

Lot 3 – Cloud Support Services

1. Pricing Approach

Services are provided on a time and materials basis under an individual G-Cloud call-off contract.

Pricing shown is indicative and represents maximum day rates. Final pricing, scope, and delivery approach are agreed with the customer at call-off.

All prices are exclusive of VAT.

2. Day Rates (Indicative)

Service Type	Maximum Day Rate
Bespoke Workflow & Automation Design	£800.00 per day
Cloud Consultancy & Implementation	£650.00 per day
Training & Knowledge Transfer	£500.00 per day

A working day is defined as 7.5 hours, delivered during UK business hours (9am–5pm, Monday to Friday).

3. Scope Notes

- Bespoke workflow and automation design includes specialist process automation, system integration and orchestration activities.
 - Cloud consultancy and implementation includes advisory, configuration, optimisation and operational support activities.
 - Training and knowledge transfer includes end-user and administrator training, walkthroughs and documentation sessions.
 - Training rates apply to training activities only and do not include configuration or development work.
-

4. Expenses

Travel and subsistence expenses may be charged only where on-site delivery is agreed in advance.

All expenses are charged at cost and must be approved by the customer prior to being incurred.

5. Additional Information

- Services are delivered remotely as standard
- On-site delivery is available by agreement
- No minimum commitment applies
- No long-term contracts are required
- Services are procured via a G-Cloud call-off contract
