AI Strategy, Assurance and Governance

Introduction to Squarcle

Squarcle is a digitally native supply chain consultancy, dedicated to driving transformative results for our clients. As a leader in the field, we leverage cutting-edge data science and digital solutions to optimise supply chain operations and propel businesses towards success. At Squarcle, we believe that every challenge holds an opportunity for transformation.

With a strong focus on digital innovation, data science, and collaborative problem-solving, we drive success by designing and executing tailored strategies that optimise supply chain efficiency, enhance operational performance, and fuel sustainable growth.

Supported by data science and a suite of agentic AI tools, we bring a differentiated approach, harnessing innovation and insights to enhance operational performance and outcomes. Underpinned by deep supply chain experience, our unique blend of military, industrial, and consulting expertise enables us to work in partnership to understand our clients' unique needs, navigate complexities, and co-create innovative solutions to drive tangible and lasting results.

Why Squarcle?

Deep Specialist Insight

With decades of military and industry knowledge; our approach is based on firsthand delivery experience

Supply Chain DNA

We possess deep procurement and supply chain expertise, aligned to SCOR and tailored to complex environments

Data & AI at our core

We have focused on leveraging the power of data since day one, driving insight to deliver sustainable impact

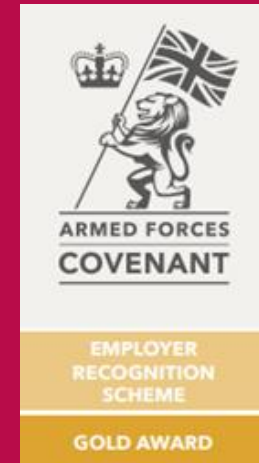

Independence

We are founder led, unencumbered by external constraints, enabling us to work without restriction

Delivery Focused

We are collaborative implementation partners, delivering impact and sustainability for clients

AI Strategy, Assurance and Governance

Service description

A comprehensive advisory and implementation service designed to help organisations confidently adopt AI in a safe, responsible, and value-driven manner. Combining strategic consulting with robust assurance tooling, we evaluate AI readiness, assess risks, identify opportunities, and guide organisations in developing compliant, ethical, and operationally sound AI capabilities.

Service Features and Benefits

Service features

- Holistic evaluation of AI readiness and organisational capability
- Identification of AI opportunities aligned to strategic objectives
- Comprehensive assessment of AI risk, governance, transparency, and compliance
- Guidance on model assurance, responsible AI, and ethical deployment practices
- Tooling to monitor AI performance, drift, risk exposure, and alignment
- Frameworks for safe adoption and lifecycle management of AI systems

Service benefits

- Accelerated and safe adoption of AI technologies
- Reduced regulatory, ethical, and operational risk
- Increased trust and transparency for AI-enabled services
- Structured implementation approach reduces cost and uncertainty
- Long-term governance frameworks ensure sustainable AI operations
- Confidence that AI solutions are robust, fair, and compliant
