# Supply Chain Control Tower

# Introduction to Squarcle

Squarcle is a digitally native supply chain consultancy, dedicated to driving transformative results for our clients. As a leader in the field, we leverage cutting-edge data science and digital solutions to optimise supply chain operations and propel businesses towards success. At Squarcle, we believe that every challenge holds an opportunity for transformation.

With a strong focus on digital innovation, data science, and collaborative problem-solving, we drive success by designing and executing tailored strategies that optimise supply chain efficiency, enhance operational performance, and fuel sustainable growth.

Supported by data science and a suite of agentic AI tools, we bring a differentiated approach, harnessing innovation and insights to enhance operational performance and outcomes. Underpinned by deep supply chain experience, our unique blend of military, industrial, and consulting expertise enables us to work in partnership to understand our clients' unique needs, navigate complexities, and co-create innovative solutions to drive tangible and lasting results.

# Why Squarcle?

## Deep Specialist Insight

With decades of military and industry knowledge; our approach is based on firsthand delivery experience

## Supply Chain DNA

We possess deep procurement and supply chain expertise, aligned to SCOR and tailored to complex environments

## Data & AI at our core

We have focused on leveraging the power of data since day one, driving insight to deliver sustainable impact

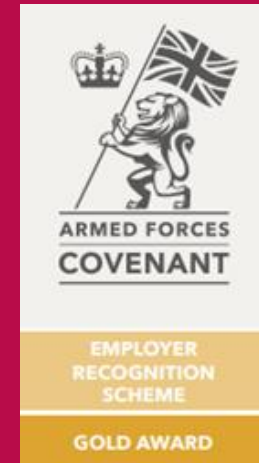

## Independence

We are founder led, unencumbered by external constraints, enabling us to work without restriction

## Delivery Focused

We are collaborative implementation partners, delivering impact and sustainability for clients

# Control Tower

## Service description

The Supply Chain Control Tower provides end-to-end visibility, coordination, and optimisation across supply chain operations. It supports planning, exception management, risk monitoring, and decision-making through real-time and historical insights, helping organisations improve performance, resilience, and operational efficiency.

# Service Features and Benefits

## Service features
