Introduction to Squarcle

Squarcle is a digitally native supply chain consultancy, dedicated to driving transformative results for our clients. As a leader in the field, we leverage cutting-edge data science and digital solutions to optimise supply chain operations and propel businesses towards success. At Squarcle, we believe that every challenge holds an opportunity for transformation.

With a strong focus on digital innovation, data science, and collaborative problem-solving, we drive success by designing and executing tailored strategies that optimise supply chain efficiency, enhance operational performance, and fuel sustainable growth.

Supported by data science and a suite of agentic AI tools, we bring a differentiated approach, harnessing innovation and insights to enhance operational performance and outcomes. Underpinned by deep supply chain experience, our unique blend of military, industrial, and consulting expertise enables us to work in partnership to understand our clients' unique needs, navigate complexities, and co-create innovative solutions to drive tangible and lasting results.

Why Squarcle?

Deep Specialist Insight

With decades of military and industry knowledge; our approach is based on firsthand delivery experience

Supply Chain DNA

We possess deep procurement and supply chain expertise, aligned to SCOR and tailored to complex environments

Data & AI at our core

We have focused on leveraging the power of data since day one, driving insight to deliver sustainable impact

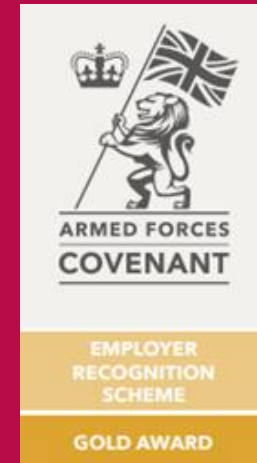

Independence

We are founder led, unencumbered by external constraints, enabling us to work without restriction

Delivery Focused

We are collaborative implementation partners, delivering impact and sustainability for clients

Business Intelligence

Service description

Scalable all-purpose cloud-based business intelligence platform offering diverse features such as data ingestion, ETL, in-depth analysis, and visualisation. Our tailored solutions optimise workflows, enhance data quality, and drive understanding for informed decision-making across organisations, emphasising versatility and scalability to meet diverse needs, providing actionable insight and empower data-driven strategies.
