10 Ensure your project is a success: *take the next step*

Technology enables when the right partner delivers.

trust your project with the right people and processes

HSO is a transformation partner with deep Public Sector expertise, that uses Microsoft technology to enable you to deliver the connected services that *make a positive difference to people's lives*.

We help Public Sector organisations modernise operations, adopt intelligent automation, deliver real-time performance insights and connect systems – accelerating the impact of digital change.

Founded in 1987, HSO is one of the world's top business solution and implementation partners, large enough to serve, small enough to care.

We are HSO - the results company

Our people make the difference. HSO's award-winning team is our secret weapon. We invest in attracting and developing the industry's brightest minds. So you don't have to.

Our expertise delivers success. Three decades of delivering Microsoft projects have taught us what works. We've built tools and methods that save time and cut risk. Every project you run with us benefits from hundreds we've done before.

Michael Lonnon
HSO, Head of Public Sector

Intelligent Solutions *features*

The HSO approach

HSO's AI-driven solutions shift organisations from knowledge-based services to outcome-focused operations. Integrated with Microsoft technologies, they analyse data, recommend actions, and automate workflows.

With secure, scalable agentic capabilities, they act as digital co-workers that streamline processes, boost productivity, and enable modern enterprises to achieve efficiency, agility, and innovation at scale.

What you get

- AI-driven analysis, synthesis, and actionable recommendations.
- Seamless integration with Microsoft 365 and Dynamics 365 apps.
- Copilot Studio and Foundry Agents for orchestration.
- Middleware layer for data processing and automation.
- Secure architecture with Entra, Defender, and Purview.
- Supports Power Apps, Teams, Outlook, and custom apps.
- Agentic ecosystem with third-party and Fabric Data agents.
- Automated workflows across business functions and processes.
- Scalable platform for enterprise-wide digital transformation.
- Continuous productivity gains through intelligent automation.

Intelligent Solutions *benefits*

Enables agility and adaptability in changing markets.

Simplifies complex processes with intelligent orchestration.

Drives innovation through connected agent ecosystems.

Delivered by ISO27001-certified Microsoft Inner Circle Partner.

Guarantee Microsoft technology success *with HSO's Intelligent Solutions*

Your dedicated team won't stop at project launch. They'll continue to work side-by-side with you to maintain momentum and drive adoption by knowing your setup inside and out and how it relates to your operation. *This frees you from 3 worries:*

1. You stay current. Your HSO team constantly updates you on new developments that benefit your operation and your residents.

2. Knowledge stays in-house. When staff change, your technology expertise remains as we preserve every connection and insight.

3. Problems get solved fast. HSO offices across the UK provide 24/7 support to resolve any issues immediately.

The result? Faster ROI, higher adoption, zero disruption.

Social value

HSO social values

HSO weaves social value into its mission: leading in Microsoft solutions while boosting opportunities and wider economic benefits. Three pillars guide our approach, supporting government's levelling up and Net Zero goals.

People

Equality, diversity, and inclusion

Inclusion underpins HSOs culture. We've created a safe environment where individuals feel empowered to share their unique ideas and perspectives. Through our actions, we ensure everyone feels respected and valued, regardless of background.

Prosperity

Skills, opportunities, and liberating lives

HSOs commitment to ethical business practices, fair trade, and responsible sourcing ensures our growth and success go hand in hand with the well-being of wider communities. To date, HSO has raised over £200,000 for nonprofit organisations.

Planet

Sustainable, greener, and cleaner future

HSO is committed to environmental excellence and pollution prevention. Working to lessen impact on the local and global environment by reducing waste, conserving energy, water, and other natural resources.

Social value is not a tick box exercise

When you work with us, Social Value is discussed from the start as we know that the needs of your organisation are as unique as the service you provide to your community.

Social Value policy](#)

HSOs commitment to you: Your Public Sector Client Director will personally ensure delivery of the Social Value aspects of our engagement with you.

- **Celebrating neurodiversity:** Encouraging neurodiverse talent to thrive, as a member of the UK Disability Confident scheme.
- **Zero tolerance modern slavery:** HSO extends this policy throughout its supply-chain and partnerships.
- **Reducing the gender pay-gap:** Annual gender pay research ensures salary equality and equal employment opportunities.
- **Supporting local initiatives:** HSO supports local initiatives to enhance employability and fostering local talent for employers.

Ensure your project is a success: *take the next step*

Get expert guidance *from veterans in your industry*

Public Sector works differently, and your Microsoft partner needs to understand that. Without real industry knowledge, they'll set up systems that fight against how you work instead of supporting it.

That's why we put Public Sector veterans in charge of your project. We're talking former executives. People who've solved your exact challenges. They know the constraints, the workarounds, and what gets results.

"HSO's implementation delivered a solution that reduced manual work and improved process efficiency while providing the capability for departmental groups to have insight into their cases addressing inadequate case management systems and effort duplication."

"The collaboration between Basildon and HSO is a prime example of how technology can drive meaningful change in the public sector. This project is setting a new standard for local government and inspiring others to follow suit."

"Over 1,500 homes across the city now have assistive technology. It provides reassurance for the families but also gives independence for the individual."
