	>1000	£150 - £180	TBC
Setup and configuration	One off fee that varies depending on the number and value of Sword solutions purchased and clients preferred set up and configuration.		

Bloom Digital Physiotherapy Programme

The Surgery Hero programme is priced on a sliding scale, the maximum price for a programme is £220. The minimum price is £150.

Set up and configuration

A one-off implementation fee is charged to cover the full scope of setup, configuration, and deployment activities. The precise fee cannot be confirmed upfront as it is directly influenced by the number, complexity, and commercial value of the Sword solutions being implemented across the product suite. Given this variability, the fee is calculated on a project-specific basis.
