

Service Definition

Clinically-Led FDP Adoption
& Pathway Optimisation
with Interoperability and
Data Support

Service Overview

A clinically-led advisory and delivery service helping organisations adopt the **NHS Federated Data Platform** and build the data, interoperability and pathway foundations needed to improve flow, waiting lists and elective recovery.

Why organisations use it

- Need to make sense of FDP capabilities and how to use them
- Fragmented data flows causing delays in pathways and operations
- Pressure to improve elective recovery, diagnostics, and inpatient flow
- Limited internal capacity in data architecture and interoperability
- Desire to move from dashboards to actionable, clinically-relevant insight
- Need confidence in choosing when to use national vs local tools

What it delivers

- Clear view of current data, interoperability and pathway maturity
- Defined and optimised data flows aligned to real clinical practice
- Practical advice on adopting FDP products effectively
- Improved pathways for flow, waiting lists and diagnostics
- A Board-ready roadmap for data-driven transformation
- Confidence that solutions are clinically usable, safe and sustainable

Key Focus Areas

- FDP adoption, configuration and use-case enablement
- Data architecture and canonical data modelling
- Interoperability design (FHIR UK Core, OpenEHR, standards alignment)
- Pathway optimisation: inpatient flow, waiting lists, theatres, CDCs
- Clinical-led analytics and operational insight
- Embedding data use into daily clinical and operational workflows

Core Outputs

- Assessment of data & interoperability maturity
- Prioritised actions to unlock pathway improvement
- Pathway-level data flow maps and models
- Interoperability and integration recommendations
- FDP adoption plan and product enablement roadmap
- Clinically-usable insight frameworks

How it feels to work with us

- Clinically-led and grounded in real-world operations
- Pragmatic, proportionate and focused on measurable outcomes
- Collaborative, capability-building and non-vendor biased
- Designed to empower teams, not create dependency

Who It's For & When to Use It

Who is this service for

- NHS provider trusts, ICSs and system planning teams
- Operational leaders in elective recovery, flow, diagnostics and UEC
- Digital, data, architecture and interoperability leaders
- Clinical directors, CCIOs, CNIOs and pathway owners
- Boards seeking assurance on data-driven transformation

When this service is most valuable

- Starting or scaling adoption of the Federated Data Platform
- Tackling long waits, elective backlogs or theatre inefficiencies
- Redesigning inpatient flow, discharge or Criteria-to-Reside processes
- Integrating CDC pathways and straight-to-test models
- Fixing fragmented data flows across EPRs and departmental systems
- Preparing for major digital change or interoperability requirements

What success looks like

- Clean, connected, standards-based data flows
- Faster, more efficient pathways with measurable impact
- FDP used meaningfully — not just deployed
- Clinically-usable insight improving daily decision-making
- Reduced duplication between national and local tools
- A clear roadmap owned by operational and clinical leaders

Your starting point for data-driven, clinically-led pathway improvement

This service provides a clear, independent view of how well your data, pathways and systems work today and what needs to change to unlock performance, improve flow and reduce waiting lists through safe, sustainable adoption of national platforms like the FDP.

Who We Are

A world where organisations
are not left behind in their
desire to progress

Offering end to end bespoke delivery from first contract to final delivery, KCL Digital combines **proven leading edge thinking, design and digital approaches with decades of experience** from the frontline of healthcare and the public sector.

From discrete, tailored work to large national programmes, KCL Digital puts our client's interests first, always with a driven focus on **putting people at the centre** of what we do. Our approach means that we can confidently deliver what we commit to, with close monitoring in a **structured, adaptable, pragmatic, and seamless** way.

Our Outline Offers

Better EPR/ERP/Specialist/Core System Journeys (Implementation & Optimisation)

From the moment you start on your journey the challenge to making sustainable improvement to really achieve your vision begins. Using practical, real-world experience and proven approaches we can accelerate the achievement of the outcomes you are after through a rounded support model tailored for your organisation and context.

Developing Digital Leadership & Change Improvement

Digital is more about people than technology. We focus on understanding your context as we then build on user-centred design and sustainable behavioural change approaches exploring creating the environment for your people to thrive. Our services cover capability and multidisciplinary team development, governance and structure reviews, and culture reviews and leadership development.

Bringing Strategy to Life

Helping clients reimagine their organisation, market and ecosystem for the digital age, through practical holistic approaches to make plans achievable in the context of your organisation, leading the transformation, to deliver the best impact and outcomes.

Effective Disruptive Tech Evaluation & Market Intelligence

Ever wonder whether the buzz of AI and clinical technologies could work in your context? Conversely are you a manufacturer that is looking to enter or find sustainable growth in a complex public sector and health markets? Our services explore clinical operational needs and align technologies and assessment of the market for both providers and manufacturers.

Unlocking Working Differently

Covid catalysed a generation to think differently about work, but this was part of a longer-term trend. We can help you use the right technologies through understanding your workforce and the way they work and could work. Our personal driven approaches enable a more sustainable look at the choice, cost and effectiveness of technology use aligned to productivity increase and value/cost optimisation.

Why KCL Digital?

KCL Digital is well placed to support you with your digital journey as we bring the experience of working across health and social care, local and regional government, and the third sector all together with a depth of leading expertise and collaborative approaches to support sustainable continuous improvement.

Our People

KCL Digital is its people: We take the team thing seriously, pulling diverse minds together in our distinctive [spirit of helping people thrive](#). We value the principles of ‘working in the open’; sharing of ideas, insights, challenges, best practices, and emerging trends as [core to our delivery](#).

Whether on-site with clients, remotely or in our studio in Richmond, our approach to [matching the best talent as standard](#) delivers the kind of insightful problem solving that offers more than just delivery.

Our Core Industries & Focus

NHS Providers

From Primary to specialist care, technology and data has often become a burden, our teams can explore a way of doing things differently to unlock the true potential of the digital era for health.

Local & Regional Government

Government leaders face an ever-evolving landscape of increased expectations and productivity challenges. Our experienced team can help imagine and explore a path to realising your vision.

Voluntary, Charities and Social Enterprise

VCSE leaders face a daunting number of challenges, potential threats but also opportunities. Our experienced team will help you envisage and construct a pathway to success.

Social Care Providers

Digital can dramatically improve the quality and safety of care. Our teams can explore, from both a care and health system view, the opportunities and the actions to energise your plans.

Integrated Health Systems

Sizable shifts abound across Health and Care. Our multi-disciplinary approach helps systems stay in the know and ahead of the curve.

With our real-world specialist, specific knowledge and experience, we can tailor our offer to your needs driven by making a difference.

HealthTech & MedTech

Today, in health and care, emerging technology and science stands as one of the greatest opportunities. Our wide array of capabilities and experience help innovative companies tackle the challenges of thriving in a complex market and regulatory setup.

Private and Retail Health and Care

Finding a way to engage, improve experience and stay in touch with customers and patients is a major business issue. Our adaptable approaches, putting people at the centre, unlock ways to get these users clicking, talking and connected.
