

ADVANTIQ Discover

Pricing Document

AI Email, Document and Records Processing
for Correspondence and Casework

Pricing approach

ADVANTIQ Discover is licensed per production instance deployed in the Buyer's own cloud tenant. Pricing is based on the number of published workflows. Prices in this document are the maximum chargeable under the Framework and exclude VAT. Product support, maintenance and upgrades are included in every licence. The Buyer meets its own cloud hosting costs within its tenant and the cost of its selected model service.

ADVANTIQ continually extends the platform. Additional capabilities are licensed as workflows under this pricing or agreed at call-off.

Packages

The four packages are independent. A Buyer can start with any of them and order them in any combination.

Discovery. A fixed-price engagement to investigate a use case with the Buyer, define the target design and configure the agreed workflows.

Pilot. A fixed-price deployment of ADVANTIQ Discover in the Buyer's tenant, running on the Buyer's own data. The deployment is production-grade and converts to a Platform Licence without rebuilding.

Platform Licence. An annual subscription for production use of ADVANTIQ Discover, tiered by scope and by the number of published workflows. It can be ordered on its own.

Adapter. Connection of ADVANTIQ Discover to a Buyer system beyond the standard adapters. Standard adapters covering the Microsoft 365 estate are included in the Platform Licence at no additional cost.

Price list

Type	Code	Item	Price	Basis	Additional workflow (per year)
Discovery	DISC-S	Discovery, small	£50,000	Fixed	-
	DISC-M	Discovery, medium	£150,000	Fixed	-

	SUP-247	24/7 support cover, Severity 1 only	20%	Per year	-

Package size is assessed by ADVANTIQ at scoping and confirmed in the Order Form. Additional workflows are charged at the rate of the Buyer's current tier. Licences are granted to the contracting entity named in the Order Form, for the scope stated. Workflow counts and licence scope are confirmed at each anniversary, and billing and tier changes take effect from that date. Where an organisation holds more than one licence, ADVANTIQ may consolidate them to the equivalent organisation-wide tier at renewal.

Standard support is included in the Platform Licence and is provided 08:00 to 18:00 UK time, Monday to Friday, excluding UK public holidays. Extended and 24/7 support cover are optional and are charged as a percentage of the annual Platform Licence fee for the Buyer's tier.

Definitions

Instance. One deployment of the service into one Buyer cloud tenant, including its non-production environments.

Workflow. One published workflow.

VAT and validity

All prices exclude VAT. This document applies to the G-Cloud 15 listing for ADVANTIQ Discover (Lot 2b, service ID 611368346245472) and should be read with the Service Definition and Terms and Conditions for the same service.
