

G-Cloud 15 Pricing Document Consultancy Services

Service Pricing – Consultancy Services

As an experienced supplier of security services to the public sector, we have built up a reputation for quality and security excellence. We understand the importance of demonstrating the value we offer and deliver value for money by providing a sound balance of price and quality.

Pricing for this service is to be provided on a day-rate basis:

- The services will be priced based on the required team, grades of consultant(s) and project timescales and agreed when scoping the exact requirements for the project.
- Pricing will be further calculated based on the applicable G-Cloud Rate Card
- A Scope of Work (SoW) will be produced, detailing the exact requirements and entire scope.
- Pricing can be provided as a fixed price, or as Time and Materials.
- Agreed timescales will have a dependency on the specific scope requirements and the size and complexity of the project . NCC Group will work with you to best size the engagement and the team required to meet the project requirements.
- Specific options required by your organisation, together with any customisation, will be priced separately.
- Professional Indemnity Insurance is included in the day rate.
