PRICING MODEL

HCO Pricing Summary

IMPACT T2D can be commissioned at practice, PCN or ICB level. Certain elements, such as the software licence fee are based on the raw patient list size of the organisation and others are based on how many unique sites are commissioned.

Pricing is based on a modular model where additional tiered service items are configured to best meet the needs of the commissioning organization. Interested parties should contact us at the address below to discuss their specific needs and requirements.
