PRICING MODEL

Implementation

PLICS Implementation	Price (Ex VAT)
End to end Implementation includes: Project manager providing formal project kick off. A detailed project plan and initiation document, weekly project review meetings and highlights reports to ensure the plan is adhered to, attendance at Trust costing steering board Activity data consultant providing: a comprehensive data scoping exercise, sharing best practice from years of experience on activity data requirements. Implementation of software either on client provided services or into IQVIA PLICS Hosted environment (subject to hosting service being contracted) and linking output with costing engine software. Costing consultant providing development and implementing a bespoke costing model in full consultation with the Trust. The cost model is designed in a way to meet local Trust reporting as well as provide all national returns. End-user training: Training is provided throughout this phase with a formal programme delivered using your new solution at the end of the implementation phase. End of implementation review: handover to “BAU” support.	£50,000.00
