

Pricing

Overshow AI Assistant

Pricing

All prices are in GBP and exclude VAT. The service combines buyer-managed client applications with centrally managed cloud services. Cloud infrastructure costs for centrally managed components are included in the subscription price.

Plan / item	Unit	Price	What's included
Standard subscription	Per user / month	£65	Core AI assistant, RBAC, audit logs, standard support (email and ticketing)
Standard subscription (annual)	Per user / month	£55	As above, billed annually
Setup fee	One-time	from £8,000	Initial deployment, configuration, and integration
Enhanced support	Per organisation / month	from £2,500	Priority handling, agreed response targets, optional extended hours, named technical account manager
Remote onboarding	Per day	£950	Configuration, user setup, guidance and remote walkthroughs
Onsite support	Per day	£1,200	Onsite workshops or support; travel and expenses additional

What's included

- Core AI assistant functionality with conversational and document analysis capabilities
- Buyer-managed client application with central configuration services
- Role-based access control and audit logging
- Standard support via email and ticketing during UK business hours
- Access to documentation and API
- Updates and version management

Optional extras

- Enhanced support with named technical account manager
- Remote onboarding or onsite workshops
- Bespoke integrations or advanced configuration
- Extended offboarding support

Billing notes

Minimum term and billing frequency are agreed in the Call-Off Contract. Discounts for educational organisations are available on request. Free trial environments are time limited and exclude production support. Bespoke integrations, advanced configuration or extended offboarding can be provided by agreement and may incur additional cost.
