Test Approach: 3 Key Steps to Automate

Onetime Setup

- Ready to use Standard Test Scripts from 1600+ scripts
- Add Custom Scripts
  - WinfoTest AI Script Assistant
  - Modifying Existing Scripts

- Create Test Run Templates by adding the scripts from Test Script Library
- Create Test Scheduler Templates by adding the Test Runs from Test Run Library for execution

- Input test data through Excel
- Copy Test Schedulers and Auto Populate Test data
- Validate Test data before execution

- Click Execute Button to execute Test Schedulers
- Copy Test Schedulers along with test data and rerun test schedules as many times as possible
- Test Scheduler templates executed across environments

- Validate test reports, receive real-time alerts and use analytics to analyse the issues
- SharePoint integration
- Jira Integration

Services: Experience Future Innovation Today

Rapid Time To Value from Winfo FIT-in-5

	**Introduction**	**5 Minutes**	Get a quick overview of any solution in just 5 minutes. We'll walk you through the key features and benefits, showing you how they can enhance your process efficiency. (Output is Summary Slides)
	**Discovery**	**5 Hours**	Structured Discovery calls to understand your specific requirements, from a process and technical standpoint, and for your team. (Output is confirmed scope and plan for the PoC.)
	**Proof Of Concept (PoC)**	**5 Days**	Experience the speed of deployment. We will setup the solution on your premise or OCI, for you to see the benefits first hand. (Output is proposal for MVP to take into Production)
	**Minimum Viable Product (MVP)**	**5 Weeks**	Implementation of the solution in your production environment, scoped to deliver a rapid return on investment based on the experiences of the PoC.
	**Continuous Business Improvement**	**5 Months +++**	See the benefits the solution brings. Monitor the value against agreed measures, optimize and extend use cases as appropriate, to deliver the results you expect and more.

WinfoTest Benefits

Test Automation

- ✓ Improved Test Coverage
- ✓ Increased Efficiency
- ✓ Saves Time
- ✓ Reduces Manual Activities
- ✓ Enhanced Accuracy and Reliability
- ✓ Reduced Cost
- ✓ Focus on Business-critical activities
- ✓ Risk Reduction

WinfoTest

- ✓ Supports All Oracle Modules
- ✓ Ready to Use Test Scripts
- ✓ Easy Test Script Creation
- ✓ Automated Scripts Update
- ✓ Script Self Healing
- ✓ No Code User Friendly UI
- ✓ Process Testing / Dependency Management
- ✓ Auto-scalable Infrastructure
- ✓ Test Evidence and Reporting
- ✓ Intuitive Test Data Creation
- ✓ Regular addition of Test Scripts
- ✓ Increased Test Coverage
- ✓ Customer Support
- ✓ No Maintenance Required

Case Studies

Investment Holding Client

Scope

- Modules - Financials, PPM, SCM, HCM, EPM, PaaS Extensions, Integrations
- Test Scripts - 850
- Phase - Implementation

Solution & Benefits

- Shortened testing timelines and mitigated risks through enhanced coverage.
- Implemented automation testing for regular operations (BAU).
- Accelerated testing in all phases and solution deployments.
- Automated testing of PaaS extensions and integrations.
- Decreased costs and saved time for IT and business users during testing.

HealthCare Client

Scope

- Modules - Financials, PPM & Procurement
- Test Scripts - 2500
- Phase – Post Implementation

Solution & Benefits

- Complete testing of over 2500 scripts for each phase
- Reduce implementation timelines and solution risks
- Leveraged the implementation scripts for quarterly upgrade testing and regression testing.
- ~ 80% savings on the testing execution time

Hi-Tech Client

Scope

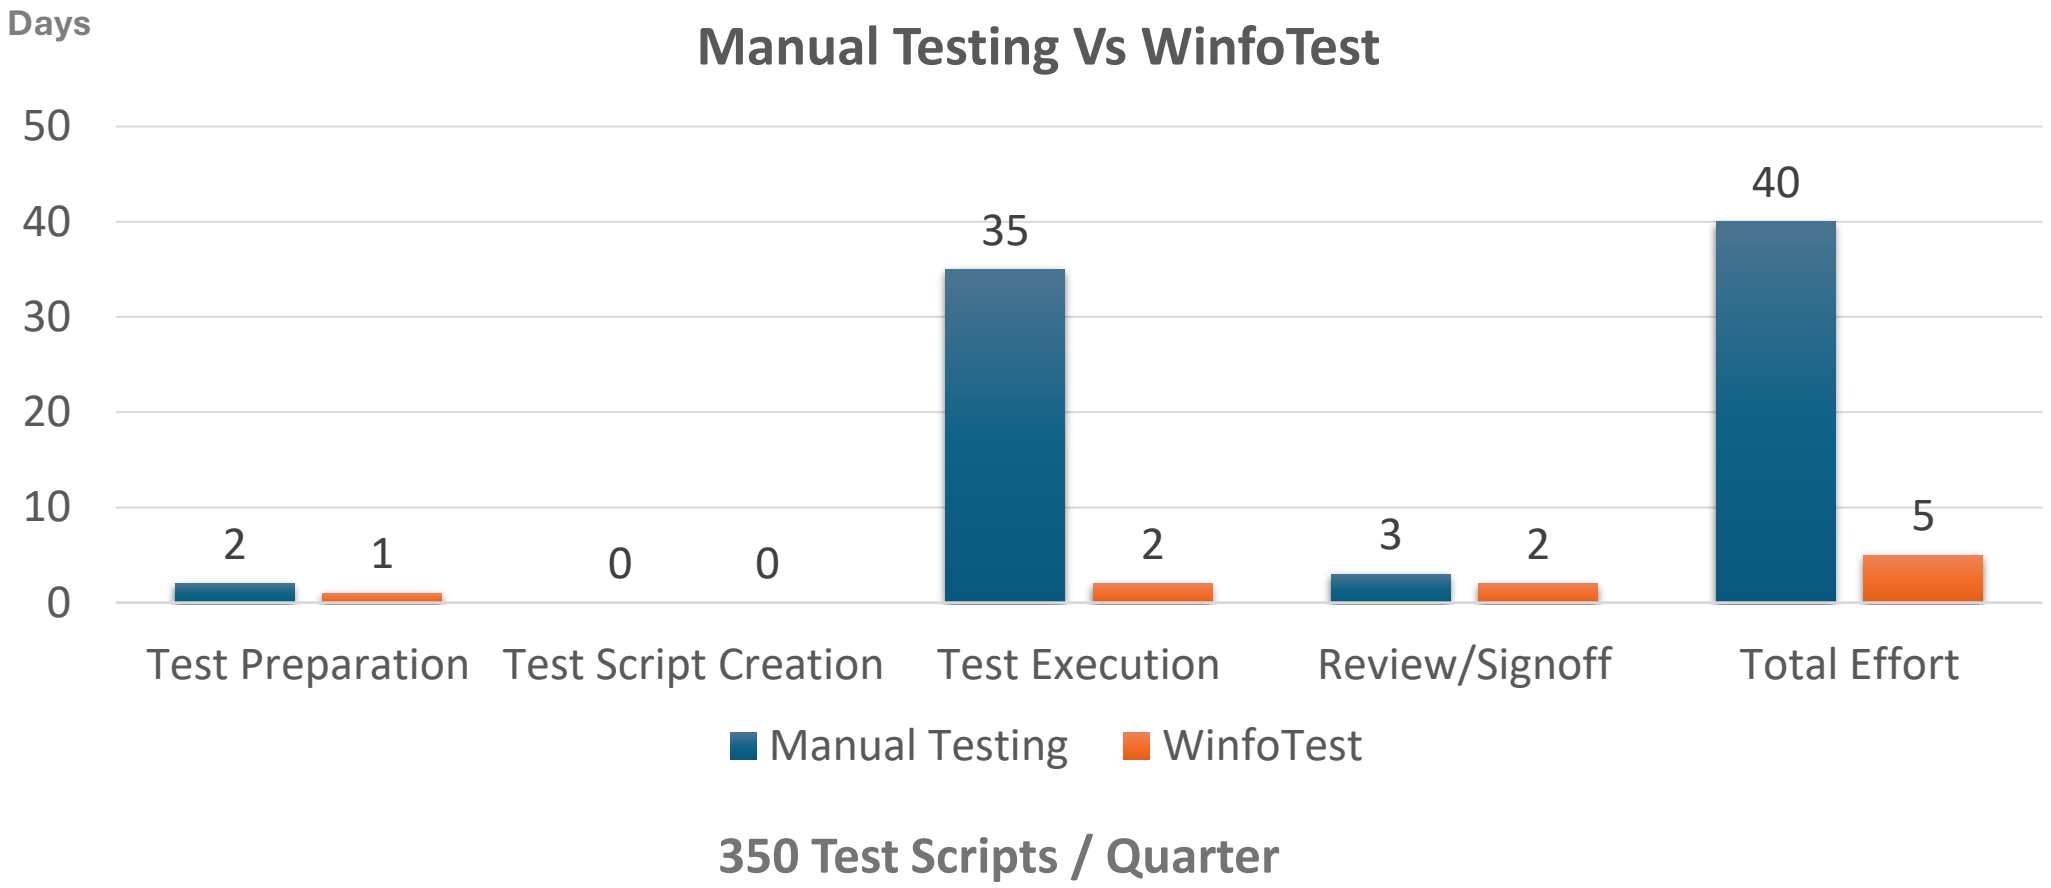

- Modules HCM
- Test Scripts 250
- Phase - Implementation

Solution & Benefits

- Complete testing of all 250 scripts in 2 days
- Reduced testing cycle to one. Business users review reports and signoff testing
- IT and Business users able to spend more time on their day-to-day activities
- ~ 80% time/cost savings on the testing
