

ITogether Service Definition Document – Cloud Network and Security Design

Detailed Description
ITogether's Cloud Network and Security Design service provides bespoke network architecture and security solutions tailored to meet the specific requirements of businesses leveraging cloud technologies. This service ensures optimal performance, robust security, and compliance with relevant standards, enabling seamless and safe cloud operations.
Business Benefits
1. Tailored Solutions: Designs match specific organisational needs and goals. 2. Enhanced Security: Advanced measures protect against modern threats. 3. Regulatory Compliance: Ensures adherence to industry standards. 4. Scalability: Designs grow with your business. 5. Optimal Performance: Networks run at maximum efficiency. 6. Business Continuity: Minimises downtime during disasters. 7. Smooth Cloud Integration: Eases transition to cloud-based operations. 8. Informed Decisions: Comprehensive reporting supports strategic planning.
Standard Service Components
1. Strategic Planning: Tailored analysis to match business and technical requirements. 2. Custom Configuration: Network setups uniquely designed for your business needs. 3. Security Integration: Embedded security within all network layers. 4. Performance Optimisation: Networks designed for peak efficiency and reliability. 5. Disaster Recovery Planning: Strategies to ensure business continuity. 6. Cloud Migration Support: Smooth transition of networks to cloud setups. 7. Monitoring Tools: Continuous network and security monitoring. 8. Documentation and Reporting: Detailed configuration and operation reports.
Optional Service Components
To be discussed during scoping exercise.
Service Exclusions
Anything not specifically included in either the above or when the project is formally scoped.
Standard Support Services
8x5 support, Monday to Friday 9am to 5pm – enhanced support also available
