Pricing Structure

ADI is offered as an all-inclusive monthly subscription to include implementation, silent mode and clinical use over the first 12-month period (see figure 1), and then ongoing monthly cost for the life of the contract. Subscription fee is invoiced in advance, with the first invoice due at Month 1 or Implementation Project commencement. Subscription fees may be paid monthly or annually in advance

Figure 1: ADI timeline first 12 months

Subscription Fee ¹²

Monthly subscription fee (GBP) per facility	Total Annual subscription fee (GBP) per facility
£12,666	£152,000

Note: All fees exclusive of VAT

Standard Subscription Pricing Inclusions

- Standard real-time unidirectional API end point
- Automated interpretation of data through the Ainsoff AI model
- Outcome / Interpretation – Ainsoff index, patient clinical summary
- Push notifications
- Acuity Summary dashboard stand alone web application
- Standard reports
- Implementation services (project management, configuration, training)
- Support services

Optional Additional Inclusions (not included in standard subscription pricing)

- Acuity summary dashboard embedded in EMR (EMR capability dependent)
- EMR re-integration via HTTPS Web hook (EMR capability dependent)

Please note the inclusion of any optional items will alter the Clinical Use (trial or full production) phase implementation timeline. The SFIA rate card will be used to determine the additional professional services cost to implement any of the desired optional inclusions shown above.
