

G-Cloud 15 Pricing Document: Qodea Google Threat Intelligence (GTI)

1. Introduction

This document outlines the pricing structure for Google Threat Intelligence services under the G-Cloud 15 Framework (RM1557.15), Lot 2b. tmc3 is part of the Qodea group. Qodea is a specialised reseller of Google Cloud services, providing public sector buyers with access to GCP and Google Cloud Security full suite of services, such as:

- SecOps
- Google Unified Security
- Google Threat Intelligence
- Mandiant Cyber Incident Response
- Cloud Armor
- Model Armor

2. Baseline Pricing (List Prices)

In accordance with G-Cloud transparency requirements, our baseline pricing is dynamic and reflects the live market rates set by Google Cloud. Buyers can access the most up-to-date service SKU's via the official Google Cloud Security Website:

- **Live services** – <https://cloud.google.com/solutions/security>

As a premium partner to Google, Qodea is entitled to significant discounts on general list prices, which will be made available to our customers. The level of discount will vary depending on the size of the commitment, the Google Cloud services consumed, length of commitment and other factors. The table below provides an indication of the level of standard pricing for this service.

Google Threat Intelligence - pre discounted pricing
