

Quality Assurance and Performance Testing – Pricing Document

G-Cloud 15: Lot 3 – Cloud Support

1. Overview

This document outlines transparent rates for Quality Assurance and Performance Testing Services delivered by IT Labs under G-Cloud Lot 3: Cloud Support Services.

The pricing shows maximum rates for UK-based and South East Europe (SEE) resources. Rates are per day and exclude VAT. Final costs will depend on the agreed resource mix, seniority, allocation and duration for each Call-Off and will be defined in the buyer's Statement of Work. The team structure below is descriptive.

Buyers will be able to view the complete list of maximum day rates for all roles and seniorities (UK-based and SEE) in our published G-Cloud 15 Lot 3 pricing section on the Digital Marketplace service page.

Service Name	Role	Description	Daily Rate Location UK	Daily Rate Location SEE
Test Automation Development and Implementation	Senior Test Engineer	Develop test automation frameworks and scripts; implement automated testing; integrate tests into CI/CD pipelines; support repeatability and maintainability of test suites.	£768	£384
	QAT Analyst	Define automated test cases, support test data design, assess automated test results and contribute to continuous improvement of automation assets.	£512	£256
Performance Testing (Load, Stress, Volume, Soak, Scalability, Capacity Planning)	Senior Test Engineer	Design and perform performance tests, measure system behavior under different loads, identify bottlenecks, and provide recommendations to ensure stability, scalability, and capacity optimization.	£768	£384
	Performance Analyst	Analyse performance test outputs; interpret system behaviour under load; quantify capacity requirements and provide actionable insights.	£768	£384

Assurance/Testing Design	Test Manager	Lead the creation of test strategies; define testing scope and methodologies; shape governance of QA activities; ensure alignment with risk and quality objectives.	£992	£496
	QAT Analyst	Support test design activities; refine test approaches for functional and non-functional assurance; coordinate design artefacts across teams.	£512	£256
Infrastructure Performance Testing	Senior Test Engineer	Conduct performance and resilience tests on infrastructure layers; validate environment configurations and support diagnostics.	£768	£384
	Infrastructure Engineer	Provide infrastructure insight and support to validate performance test conditions, assist with test environment provisioning and monitoring.	£768	£384
Operational Readiness Testing	Senior QAT Analyst	Execute operational readiness testing prior to go-live; perform verification, compliance checks, risk-based test coverage and readiness reporting.	£736	£368
	Service Transition Manager	Coordinate test execution with deployment plans; ensure operational handover readiness and manage transition risks.	£864	£432
Service Management	Senior Delivery Manager	Oversee holistic service execution, including quality performance, SLAs, risk escalation and ongoing reporting.	£864	£432
	Product Manager	Represent stakeholder needs, manage prioritisation of QA deliverables, and ensure service outcomes meet user and business expectations.	£800	£400

1.1 Notes

- The pricing shows maximum rates for UK-based and South East Europe (SEE) resources. Buyers will agree on the rates in the Call-Off Contract.
- Rates remain fixed for the duration of the Framework unless otherwise agreed in the Call-Off Contract.
- Location of the resources is agreed with the buyer.
- Travel and on-site costs, if required, are agreed separately.
