Technical Training

Want to learn how to deploy iPhone, iPad, Mac or other Apple devices? Our Technical Training courses will help you understand how to configure the Apple technology used in your school, business, or other organisation.

Our experts will take you on a tour of a range of deployment tools and programmes, covering the key features and uses for each element. They will then walk you through the essentials, with a step-by-step guide on how to complete key tasks.

Configure Classroom App - 2-3 HOUR COURSE | CLASSROOM & REMOTE

In this course, delegates will learn how to configure and support Apple's Classroom app, using Apple's adhoc configuration method. Classroom app helps teachers create and manage their own classes, without needing access to the schools management system (MDM).

Deployment Programmes - 2-3 HOUR COURSE | CLASSROOM ONLY

This course allows delegates to take a guided exploration of Apple School/Business Manager. Within the School or Business Manager environment, we will also discover: Apps & Books, Automated Enrolment, Managed Apple IDs, SFTP Uploads, and more.

iOS Deployment Practises - 2-DAY COURSE | CLASSROOM ONLY

In this session we will focus on best practises for working with Profiles and Smart Groups, and uncovering app deployment 'gotyas'. This course will also explore different deployment models, including the differences between managing shared and individual's devices.

macOS Deployment Practises - 2-DAY COURSE | CLASSROOM ONLY

In this session we will focus on deployment workflows for macOS, including: zero touch, and exploring Jamf Connect. We will also explore Jamf Pro Server policies and smart groups to maximise efficiencies for IT professionals – and touch on essential Jamf Pro features.

Bespoke Sessions - CLASSROOM & REMOTE SESSIONS

Want a bespoke session for your team? Our experts can work with your organisation to build the perfect course to suit your Apple deployment needs – including the use of deployment software like Jamf Pro and Jamf School. Our experts can also support with integration training for Directory Services.

Sync Inspire

What is Sync Inspire?

Sync Inspire is a fantastic opportunity for schools looking to enhance the use of technology in lessons. Up skill your staff while reducing workload and allowing students to explore learning in ways that suit them.

Why Sync Inspire?

Sync Inspire offers schools the chance to work alongside Apple Professional Learning Specialists to encourage and inspire teachers and students to make the most of the technology to drive the best results. Learn how to improve equity for all learners through the use of best-in-class technology, and gain ongoing support from our Apple Professional Learning Specialists with any questions you may have.

What's included?

No matter which Sync Inspire course your institution chooses, you will gain access to:

- Access to Sync Academy Videos and the creation of bespoke videos
- A summary report
- Regular updates from your Account Manager
- Access to Apple Teacher, Jamf Educator and Showbie Educator
- End of Sync Inspire Survey

Working with Sync

An Apple Professional Learning Provider (APLP) aids schools in building the foundations for a successful implementation of Apple technology. They help educators develop their skills with Apple devices, supporting learning, teaching, coding or deployment and management objectives.

As an APLP, Sync supports organisations across the UK in the adoption, deployment, and ongoing use of technology in Education. This covers everything from helping schools introduce the latest devices into the classroom, guiding CPD and curriculum strategies.

Day Package

A refresh for current staff members or get ECTs up to speed with your digital strategy.

This package includes:

- Telephone call to plan your sessions
- Verbal session plan
- Training days ran either by dedicated APLS or co-taught
- End of day catch up

Apple Learning Institute

What is Apple Learning Institute?

Apple Learning Institute consists of two full-day sessions exploring how to effectively utilise Apple technology in the classroom and across your institution. Through a mix of interactive workshops, our team will work with you to shape best practices across your school and embrace digital initiatives.

During the course, every participant will develop a Digital Learning Plan that is personalised to their school, enhance their digital and leadership skills to ensure the plan is realised, and on completion walk away with **Apple Learning Leader** recognition.

What is an Apple Learning Leader?

Apple Learning Leaders are trailblazing mentors within their institutions, who have an understanding of the importance of technology in the classroom. They have an elevated approach to the innovation of teaching and learning, from a leadership perspective.

Course Breakdown

During the Apple Learning Institute course, educators will understand the qualities and behaviours of both culture and teaching and learning excellence. They will also analyse the current institution approach to 'digital' and highlight where changes need to be made. Educators will then create a professional learning implementation plan which will be tailored to your institution's needs and help guide the next steps.

- 2 full days of engaging workshop modules at the Sync Store
- The creation of a focussed Digital Learning Plan specific to your school
- Materials to work on during and after the course
- Engage in a range of activities to use with staff
- Understand how Apple technology can support your institutions priorities
- On completion of the course each candidate will leave with a Apple Learning Leader recognition
- Accommodation is included and arranged by Sync.

What is an Apple Professional Learning Specialist?

Apple Professional Learning Specialists are educators with expert qualifications to illustrate how to best use Apple technology in the classroom. Their role is to support educators in how they develop and implement new approaches to teaching and learning.

Why Sync?

Sync supports organisations across the UK, aiding in the adoption, deployment, and ongoing use of Apple technology. This includes the provision of hardware, software and finance solutions, as well as installations, training, technical support, repairs, and more.

Our approach covers everything from helping organisations to introduce the latest technology into their working practice, integrating with current systems (including Microsoft and Google), guiding CPD and training strategies, and supporting technology services. Meanwhile our work with Apple Financial Services and recycle scheme ensures your organisation is able to keep your technology up to date, and that older devices never go to waste.
