Pricing Schedule

Supplier: Amicis Group Limited
Framework: G-Cloud 15
Service Reference: [Service ID]
Last Updated: 21/01/2026

Pricing Schedule – Introduction

This Pricing Schedule sets out the charges applicable to the Amicis Group services listed below. Prices are provided in pounds sterling and exclude VAT unless stated otherwise. Pricing is based on the service units and assumptions described for each service and applies for the duration of the G-Cloud 15 framework, unless superseded by a Call-Off Contract.

Buyers should refer to the relevant service description and service terms for details of scope, service constraints and customer responsibilities. Where additional services, changes in scope or out-of-hours support are required, pricing may be adjusted in accordance with the Call-Off Contract.

All prices are indicative of standard service delivery and are non-exclusive of any third-party licensing or platform costs unless explicitly stated.

Unless explicitly included, pricing under this Pricing Schedule does not include any third-party products or services, including CrowdStrike licences, subscriptions or professional services. Any such third-party products or services are subject to separate agreement and pricing.

Amicis Group Services

1. CyberGuardLite

Service overview
A lightweight, entry-level cyber security monitoring and advisory service designed for small or low-risk environments.

Pricing unit(s)

- Per user, per month
- Optional add-ons priced separately
