

Highlights

- Global Teams delivering Modern Service Management driven Operations
- Leverage pre integrated Cloud native and cloud ready tools for real time managed services
- Flexible, Modular services catalog ready for integration into customers' IT environment

Maximize Cloud benefits, through optimized and simplified operations on AWS

Customer challenge

Enterprises are accelerating their digital transformation by migrating and modernizing their workloads on AWS. However, they face challenges mainly due to lack of right cloud skills, cloud aligned processes and cloud ready management tools, which impacts their ability to manage their AWS environment in an optimum manner.

These challenges effectively hamper the enterprises' ability to maximize their benefits that cloud offer, effectively stalling their digital transformation programs.

Kyndryl® Cloud Managed Services provides secure and pre-emptive management of enterprises AWS environments. Cloud managed services includes 24x7 management of IaaS, PaaS and Containers on AWS, allowing enterprises to focus on their business applications development and deployment.

How we help

Tools and processes

Monitoring solutions using statistical techniques and forecasting to proactively identify anomalies and potential issues, reducing noise

API based discovery and automated onboarding for faster deployment of manage ready environments

Continuous enhancements and automations improve operational efficiency with built-in security & DevOps practices

People and processes

Global team of AWS certified experts to manage the AWS environment and provide ongoing optimization recommendations

SRE and DevOps-based delivery model with "automation first" approach and "secure by design" delivery principles

Operational processes that follow the cloud native operating model, leveraging the best practices recommended by AWS as well as Kyndryl's expertise

Expertise

Kyndryl has decades of experience working with customers to deliver enterprise-grade workload analysis, migration, implementation, and managed services for the most complex workloads.

Our partnership has a rich history of delivering customers-centric innovation, aimed at evolving and sustaining the world's most vital IT systems.

Kyndryl has the people, processes, and technology to help organizations progress their digital transformation journey using intelligent data and AI-driven insight.

Why Kyndryl?

Kyndryl works at the core of businesses that move the world. With more than 90,000 skilled professionals operating in over 100 countries, we design, build, manage and modernize the mission-critical technology systems that the world depends on every day.

To learn more about how Kyndryl can help you deploy and manage on AWS, contact your Kyndryl representative or visit us at kyndryl.com.
