

G-Cloud 15 – Lot 2b Pricing Schedule

Service Name: *SCG Development & Analytics Platform Service (MSDEVAN)*

Supplier: *[Your Organisation]*

Version: *2026-01*

Status: *Draft for your approval*

GitHub Pricing: *Excluded (Buyer-licensed)*

SECTION 1: Overview of Pricing Approach

This Pricing Schedule sets out all costs associated with the SCG Development & Analytics Platform Service. Pricing is based solely on the Microsoft technologies explicitly referenced within the Service Definition, aligned to Microsoft New Commerce Experience (NCE) public sector pricing.

All prices are:

- Quoted **per user per month (PUPM)** unless otherwise stated
- Based on **Microsoft ERP list price** from the provided NCE Pricefile
- Excluding VAT
- Valid for **G-Cloud 15 Framework Year**
- Aligned to **CCS SaaS pricing rules** (no bespoke discounts, no tiered pricing beyond NCE rules)

The service supports (but does not resell) GitHub Enterprise Cloud. Buyers may use their own licences.

SECTION 2: Detailed Pricing Tables

2.1 Included Microsoft Licensing Required for the Service

Only Microsoft technologies explicitly referenced in the Product Definition are included:

- Power BI
- Power Apps
- Power Automate

SCG.WORLD Limited
1st Floor, 85 Great Portland St
London W1W 7LT, UK
UK Company 10183664.

- Microsoft Copilot Studio (formerly PVA)
- Dataverse capacity
- Azure DevOps
- Azure consumption services (Azure ML, Databricks, Azure Maps)
- GitHub (support only; no resale)

2.2 Power BI

SKU Name	Description	Billing Model	Unit Price (ERP)	Unit
Power BI Pro	BI dashboards & reporting	Per user per month	£7.50	User
Power BI Premium Per User	Advanced analytics features	Per user per month	£15.10	User

2.3 Power Apps

SKU Name	Description	Billing Model	Unit Price (ERP)	Unit
Power Apps Premium	Application development & Dataverse access	Per user per month	£15.10	User

2.4 Power Automate

SKU Name	Description	Billing Model	Unit Price (ERP)	Unit
Power Automate Premium	Workflow automation across systems	Per user per month	£11.30	User

2.5 Microsoft Copilot Studio

SKU Name	Description	Billing Model	Unit Price (ERP)	Unit
Microsoft Copilot Studio	Chatbot authoring	Per user per month	£35.10	User

2.6 Dataverse Capacity Add-ons

SKU Name	Description	Billing Model	Unit Price (ERP)	Unit
Dataverse Database Capacity	Additional structured storage	Per GB per month	£30.20	GB
Dataverse File Capacity	File/binary storage	Per GB per month	£1.50	GB
Dataverse Log Capacity	Logging and telemetry	Per GB per month	£7.50	GB

2.7 Azure DevOps

SKU Name	Description	Billing Model	Unit Price (ERP)	Unit
Azure DevOps Basic	Repos, Boards, Pipelines	Per user per month	£4.67	User
Azure DevOps Basic + Test Plans	Includes Test Plans	Per user per month	£38.00	User

2.8 Azure Consumption Services (Metered)

Azure services used in the MSDEVAN platform (Azure Machine Learning, Azure Databricks, Azure Maps) are billed directly to the Buyer's Azure subscription using standard public sector rates.

Service Area	Billing Basis	Price Basis
Azure Machine Learning	Metered	Microsoft ERP consumption price
Azure Databricks	Metered	Microsoft ERP consumption price
Azure Maps	Per 1,000 transactions	Microsoft ERP consumption price

Note: Azure consumption costs are variable and billed directly via the Buyer's CSP/NCE agreement.

SCG.WORLD Limited
1st Floor, 85 Great Portland St
London W1W 7LT, UK
UK Company 10183664.

2.9 GitHub (Supported, Not Resold)

GitHub Enterprise Cloud is supported by the service, but not sold.

Buyers must procure GitHub licences separately.

SKU Name	Pricing Approach
GitHub Enterprise Cloud	Not supplied. Buyer must use existing licences.

SECTION 3: Volume Discounts

This service does **not** offer bespoke supplier discounts.

All volume adjustment is governed by:

- Microsoft NCE rules
- Azure consumption pricing rules
- Dataverse storage tiers

No additional tiered pricing is available under G-Cloud.

SECTION 4: Trial Options

No free or discounted trials are offered under G-Cloud.

SECTION 5: Services Included in the Price

The following are included at no additional cost:

- Access to the SCG Development & Analytics Platform
- Environment provisioning
- Standard support aligned to the Service Definition
- Access to templates, pipelines, sample data models
- Use of Microsoft tenant-owned environments
- Integration configuration (standard connectors)

SECTION 6: Services Not Included in the Price

Charged separately or Buyer-provided:

- Azure consumption charges (Azure ML, Databricks, Maps)

- GitHub Enterprise Cloud licences (this schedule excludes pricing)
- Bespoke development outside scope
- Non-standard integrations
- Migration, data engineering or consulting services beyond the service wrapper

SECTION 7: Additional Service Options

Optional paid services (time-and-materials):

Service	Unit	Rate
Senior Consultant	Per day	£950
Developer / Data Engineer	Per day	£750
Architect	Per day	£1,050

SECTION 8: Exit Costs

No exit fees apply.

Buyers may export all data and models at no charge.

Where assistance is requested, it is charged at the T&M rates in Section 7.

SECTION 9: Assumptions

- Buyer provides Microsoft tenancy and licences unless otherwise stated
- Buyer accepts NCE licensing terms
- Buyer provides Azure subscription for metered services
- All prices exclude VAT
- All prices may change if Microsoft revises ERP pricing

SECTION 10: Pricing Change Policy

Pricing will remain fixed for the Framework year.

Changes may occur only if:

- Microsoft adjusts NCE ERP list price
- Tax or regulatory changes occur
- Azure consumption prices change

No discretionary price increases will be made.
