

B-SAFE

Pricing Document

January 2026

Pricing overview

B-SAFE is a modular software. This means each B-SAFE module can work as a standalone module but can be seamlessly integrated with others to provide organisations with one system for solving common enterprise, traffic regulation, governance, risk and compliance challenges.

Price depends on the number of users/licences.

Core Traffic Regulation Orders management contains but not limited to:

- TROs/TMOs
- Map
- Schemes
- Consultations
- Sharing
- Parking
- Deployment
- Documents management
- Calendar/Diary
- Fees
- Feedback
- Requests form

Appendix 1. Examples of project price calculation

Example 1.

You have 10 managers that need access to the systems.

Public does not need access to the portal.

You need just standard support during working hours.

You will upload data from your previous systems via csv using built-in import functionality yourself. And you will export data at the end of the contract yourself using built-in export functionality.

You will manage all users accounts in the system (no integration with HR).

You select a 2-years term for the contract and pay in advance for 2 years.

So the pricing schedule will be the following:

Title	quantity	unit price	discount	sum
year 1				
instance roll-out (once)	1	10000	-	10000
user licences (annually)	10	500	-	5000
year 2				
user licences (annually)	10	500	-	5000

B-SAFE

Pricing Document

January 2026

Full Amount to pay:	20000
---------------------	-------

B-SAFE

Pricing Document

January 2026

Example 2.

You have 50 managers that need access to the systems.

You will publish your TRO's for public access.

You need just standard support during working hours.

At the contract start you need to transfer your TRO's and schemes from the previous solution and at the contract end you will need the assisted full data extract.

You will manage all users accounts in the system (no integration with HR).

You select a 4-years term for the contract.

So the pricing schedule will be the following:

Title	quantity	unit price	discount	sum
year 1				
instance roll-out (once)	1	10000	-	10000
data migration of 2 tables (once)	2	500	-	1000
user licences (annually)	50	500	-	25000
public portal (annually)	1	4000	-	4000
support	1	free	-	0
year 2				

B-SAFE

Pricing Document

January 2026

user licences (annually)	50	500	-	25000
public portal (annually)	1	4000	-	4000
support	1	free	-	0
year 3				
user licences (annually)	50	500	5%	23750
public portal (annually)	1	4000	5%	3400
support	1	free	-	0
year 4				
user licences (annually)	50	500	5%	23750
public portal (annually)	1	4000	5%	3400
full data extraction (once)	1	1000	5%	950
support	1	free	-	0

So you get the system for a very large organisation with all you need for 4 years for just 124250 GBP.
