

# B-SAFE

## Pricing Document

January 2026

### Pricing overview

B-SAFE is a modular software. This means each B-SAFE module can work as a standalone module but can be seamlessly integrated with others to provide organisations with one system for solving most challenges.

Price depends on the number of users/licences and the number of modules you select.

For complex Library management, we recommend selecting at least the following:

- Stock,
- OPAC,
- Self-service portal
- Circulation,
- Serials,
- Acquisitions,
- Reference Tracking,
- Z39.50
- Finance,
- Cash,
- Loans,
- Digital Asset Management
- Archive
- Documents management

Please, refer to [examples](#) of project price calculation for avoidance of doubts.

## Pricing Document

January 2026

### Main Costs of service:

| Title                                                 | price (depends on the full number of licences bought), GBP |                |                  |                   |            |
|-------------------------------------------------------|------------------------------------------------------------|----------------|------------------|-------------------|------------|
|                                                       | <100 users                                                 | 100-2000 users | 2000-20000 users | 20000-34000 users | >34000     |
| roll-out of 1 instance (once)                         | 5,000.00                                                   | 5,000.00       | 15,000.00        | 50,000.00         | 100,000.00 |
| enabling of 1 <a href="#">paid module</a> *<br>(once) | 200.00                                                     | 300.00         | 400.00           | 500.00            | 1,000.00   |
| 1 user licence (annually)                             | 100.00                                                     | 40.00          | 20.00            | 10.00             | 4.00       |

### Discounts:

- for educational organisations: 10%;
- for longer terms with prepayment: 2-4 year - 15%; 5-10 year - 30%; >10 - 40%;
- for users with read-only and/or add-only access on an individual basis.

Please, refer to [examples](#) of project price calculation for avoidance of doubts.

### Examples of project price calculation

#### Example 1.

*You have 10 managers that need access to the system.*

*You need Stock and Loans modules.*

*Other staff don't need access.*

*You need just standard support during working hours.*

*You will upload data from your previous systems via csv using built-in import functionality yourself. And you will export data at the end of the contract yourself using built-in export functionality.*

*You will manage all users accounts in the system (no integration with HR).*

*You select a 2-years term for the contract and pay in advance for 2 years.*

So the pricing schedule will be the following:

| Title                           | quantity | unit price | discount (for 2-years term) | sum  |
|---------------------------------|----------|------------|-----------------------------|------|
| year 1                          |          |            |                             |      |
| instance roll-out (once)        | 1        | 5000       | 15%                         | 4250 |
| enabling of paid modules (once) | 2        | 200        | 15%                         | 340  |
| user licences (annually)        | 10       | 100        | 15%                         | 850  |
| support                         | 1        | free       | -                           | 0    |

# B-SAFE

## Pricing Document

January 2026

| year 2                   |     |      |     |      |
|--------------------------|-----|------|-----|------|
| user licences (annually) | 500 | 100  | 15% | 850  |
| support                  | 1   | free | -   | 0    |
|                          |     |      |     |      |
| Full Amount to pay:      |     |      |     | 6290 |

So you get the system for 2 years with all you need for just 6,290 GBP.

### Example 2.

*You have 500 managers that need access to the system.*

*Your managers often work on-move, so they would prefer mobile applications.*

*You need stock, OPAC, loans, serials modules.*

*Other staff don't need access and will submit their reports on a paper-based basis.*

*You need just standard support during working hours.*

*At the contract start you need to transfer your Stock and Loans from the previous solution and at the contract end you will need the assisted full data extract.*

*You will manage all users accounts in the system (no integration with HR).*

# B-SAFE

## Pricing Document

January 2026

*You select a 5-years term for the contract.*

So the pricing schedule will be the following:

| Title                             | quantity | unit price | discount (for 5-years term) | sum   |
|-----------------------------------|----------|------------|-----------------------------|-------|
| <b>year 1</b>                     |          |            |                             |       |
| instance roll-out (once)          | 1        | 5000       | 30%                         | 3500  |
| enabling of paid modules (once)   | 4        | 300        | 30%                         | 840   |
| data migration of 2 tables (once) | 2        | 500        | 30%                         | 700   |
| user licences (annually)          | 500      | 40         | 30%                         | 14000 |
| mobile applications (annually)    | 1        | 5000       | 30%                         | 3500  |
| support                           | 1        | free       | -                           | 0     |
| <b>year 2-4</b>                   |          |            |                             |       |
| user licences (annually)          | 500      | 100        | 30%                         | 14000 |
| mobile applications (annually)    | 1        | 5000       | 30%                         | 3500  |
| support                           | 1        | free       | -                           | 0     |
| <b>year 5</b>                     |          |            |                             |       |

# B-SAFE

## Pricing Document

January 2026

|                                |     |      |     |       |
|--------------------------------|-----|------|-----|-------|
| user licenses (annually)       | 500 | 100  | 30% | 14000 |
| mobile applications (annually) | 1   | 5000 | 30% | 3500  |
| full data extraction (once)    | 1   | 1000 | 30% | 700   |
| support                        | 1   | free | -   | 0     |
|                                |     |      |     |       |
| Full Amount to pay:            |     |      |     | 93240 |

So you get the system for a large organisation with all you need for 5 years for just 93,240 GBP.

### Example 3.

*You have 35,000 staff that need access to the system. 5000 managers and 30000 users with access to the self-service only.*

*Your managers often work on-move, so they would prefer mobile applications.*

*You need Stock, OPAC, Self-service portal, Circulation, Serials, Acquisitions, Loans, Finance, Cash management modules.*

*At the contract start you need to transfer your stock, OPAC, loans, serials from the previous solution and at the contract end you will need the assisted full data extract.*

*You will manage users accounts in your HR system (so integration with HR is required).*

*You need 24/7 support. You select an 11-years term for the contract.*
