Pricing overview

B-SAFE is a modular software. This means each B-SAFE module can work as a standalone module but can be seamlessly integrated with others to provide organisations with one system for solving common enterprise, Health and Sevierlance, Governance, Risk and Compliance Challenges.

Price depends on the number of users/licences and the number of modules you select.

For complex Occupational Health management, we recommend to select at least the following:

- Appointments
- Screenings
- Interfaces with audiometry & spirometry equipment
- Vaccinations/immunisations
- Self-assessments
- Absences
- H&S Incidents
- Specific assessments
- Documents management

Please, refer to [examples](#) of project price calculation for avoidance of doubts.

Examples of project price calculation

Example 1.

You have 10 health specialists that need access to the systems, no employees / patient accounts required.

You need Appointments and Screenings modules.

You need just standard support in working hours.

You will upload data from your previous systems via csv using built-in import functionality yourself. And you will export data at the end of the contract yourself using built-in export functionality.

You will manage all users accounts in the system (no integration with HR). You need just email and push notifications.

You select a 2-years term for the contract and pay in advance for 2 years.

Title	quantity	unit price	discount (for 2-years term)	sum
year 1				
instance roll-out (once)	1	5000	-	5000
user licences (annually)	10	200	-	2000
year 2				
user licences (annually)	10	200	-	2000
Full Amount to pay:				9000
