1. Quaylogic Overview

Quaylogic is a specialist consultancy and data / AI / technology management services provider - we help our clients to harness the power of their data.

We pride ourselves on the deep technical and industry expertise our consultants and delivery teams brings every client engagement. We have many years of experience delivering complex data programmes, technology implementations and regulatory driven changes.

Our consultants and delivery teams operate cross-industry and have backgrounds ranging from public sector, financial services, policing and law enforcement, automotive, health, pharmaceuticals and manufacturing. Our strength is being able to provide an end-to-end delivery team that can take our clients from business case and data strategy through into implementation and embedding into BAU.

2. Our Capability

Quaylogic is a specialist data management and technology provider built around seasoned data practitioners that have extensive experience, delivering the data capability our clients need to transform their businesses and operations . We offer a range of services from data strategy to platform design, build and implementation, including DCAM assessments, metrics frameworks and data management target operating model & tooling implementation.

Our Delivery Road-Mapping core offering is built around **3 inter-connected tenants** of Data Management, with a key focus on embedding data & data skills into the fabric of our client's organisations, their ways of working and their people.

Data Strategy & Implementation

Customisable Service Catalogue that covers both the business process portions of the Data Target Operating Model as well as Platform and Tooling

Quaylogic have many **formal Partner & Alliance relationships** with key technology and data management organisations / vendors to support successful road-mapping delivery.

With our Partner & Alliance firms, we play a key role that supports both our clients and the key vendor firms we work with to deliver high value outcomes & business benefits, including:

- Formally vendor trained and certified Quaylogic resources
- Dedicated professional services and implementation support for clients
- Range of Quaylogic Accelerators to reduce implementation timescales, improve BAU operation and control risk
- Input and awareness of product roadmaps & vendor direction

A selection of our partners and alliances are presented below:

Quaylogic recognise the need to **build technology and data skills** into BAU to enable sustainable, internally resourced and effective adoption of data management, data technology platforms and AI across the organisation. In support, **our Q-Academy offering** helps our clients with junior resourced, who are trained and skilled up by Quaylogic ready to deploy for to build sustainable development and operational capability for our clients:

Q-Academy ©

We take our graduates and junior professionals through our dedicated training and mentoring programme to develop to be equipped with the right skills and experience.

We mentor and train our data management and data engineering people to be the skilled and experienced data management professionals of tomorrow.

Our Q-Academy © Team are skilled, energetic and motivated to deliver the right data capability for your organisation.

3. Service Overview

Quaylogic provides project management and governance services to design, mobilise, and deliver complex application, data and cloud programmes in a controlled and transparent manner. Our approach ensures delivery is aligned to organisational objectives, governance standards and public sector assurance requirements.

We support organisations across the full programme lifecycle, from initial programme and portfolio design through to delivery execution and transition into business as usual. Services can be delivered as a complete managed PMO function or as a targeted support to augment existing client capability.

Key Features

- Application, data and cloud programme design and mobilisation
- End-to-end project and programme management services
- PMO setup, operation and continuous improvement
- Governance model definition, implementation and operation
- Definition of Terms of Reference, roles and responsibilities, and RACIs
- Programme planning, dependency management and risk control
- Delivery assurance, reporting and stakeholder management

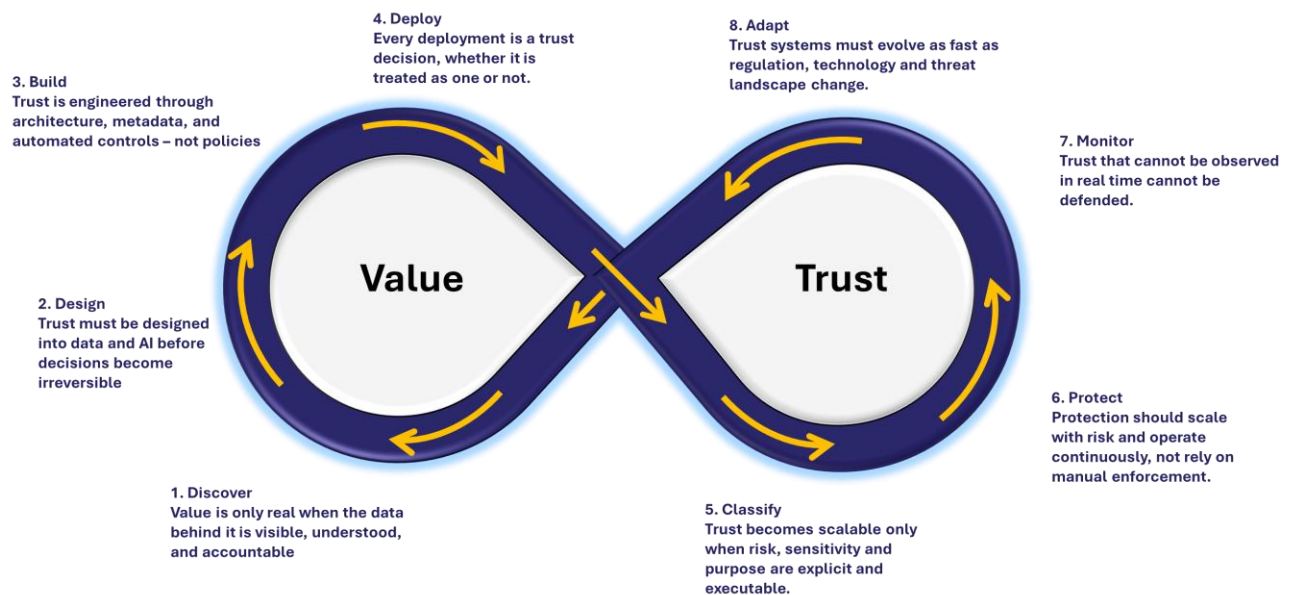

Key Benefits

- Clear ownership, accountability and decision-making across programmes
- Improved delivery confidence, transparency and control

- Reduced delivery risk through structured governance and assurance
- Consistent reporting aligned to public sector standards
- Effective coordination across business, data and technology teams
- Smooth transition from programme delivery into BAU operations

4. Service Description

Quaylogic Project Management & Governance services provides the structure, oversight and decision making needed to deliver complex AI, data and technology change with confidence. It turns strategic intent into controlled delivery and sustainable business as usual outcomes.

At a detailed level the Project Management & Governance deliverables provide the controls needed to scale change without losing momentum or confidence.
