

Pricing

Configur's pricing is tailored to each organisation to ensure maximum value for each customer. Pricing will be dictated by the amount of data storage, API calls and backup levels required. Prices are dependent on the scope of work to be agreed during the sales process, and through any required discovery consultancy.

Proof of Concept - PoC

From £15,999 for 3 months.

Flexible pricing, dependent on the scope of work.

Enterprise Tier

Consultancy Services and Onboarding

Configur provides a truly flexible and connected experience, but often our clients need a helping hand in cleansing and onboarding their data. The Configur platform streamlines this process allowing us to keep the Consultancy requirement to a minimum whilst maximising output. A typical project would include the following items:

Strategic Planning

- Workshops to determine your:
 - Focus areas and challenges
 - Organisational vision for data and AI
 - Goals and expectations
 - Competitive landscape
 - Differentiation opportunities
- Development of Strategic Data and AI Roadmaps for teams, departments, organisations

Onboarding and Delivery

- Sourcing, Extraction and Validation
 - Data profiling and cleansing
 - Data ingestion
- Data Transformation

- Mapping and Visualisation
 - Dashboard and Query creation
- Implementation of secure AI solutions
 -
- User Acceptance Testing
 - User training and feedback sessions
 - Training so that you're fully proficient on the platform.

Additional Consultancy: £750 per day

Configur+ Support: £6,000 for 12 days per year
