

Data Edge Analytics Ltd Entity Resolution Service – Pricing, v1.0

All prices quoted below are exclusive of VAT. Prices may be increased as per RPI index.

Software Pricing Senzing:

Pricing for the Senzing entity resolution engine is based on data consumption volumes. (By way of indication, data ingest volumes of 10m records will cost around £29k; 500m records will cost £425k.) Updates to records and searches aren't counted. An unlimited licence is available – price on application.

Elastic Search

Elastic Search offers a variety of pricing options with different deployment options and features. Pricing for this component will be as per the software developer's current offered rates.

Data Edge graph, calendar, timeline, query and alerting tools

These are available free of charge as part of the service as they are Crown Copyright.

Service Delivery Pricing

There are 5 components to our service:

1. technical evaluation and feasibility
2. set up, configuration, installation and maintenance/upgrades*
3. dataset preparation and load*
4. data analysis
5. business consultancy and service readiness (inc. training)

Once the scope and type of service required is understood fully Data Edge Analytics will provide a proposal to the Buyer in respect of these components' associated costs.

(*1st, 2nd, 3rd line support package is embedded into these components and will be priced once the extent of support has been agreed with the Buyer.)

Support pricing

A variety of roles are required to deliver the service.

- senior data engineer
- senior data analyst
- senior devops engineer
- software developer
- technical architect

- delivery manager
- senior business analyst
- business change manager

See the accompanying SFIA rate card (for FY25/26) for additional resource prices:
