

Enterprise Plan & Pricing

Kissflow Platform: Enterprise Subscription Considerations

1. **Hosting Model** -
 - a. Kissflow Public Cloud,
 - b. Kissflow provisioned dedicated instance,
 - c. Virtual Private Cloud under customer cloud account
2. **Number of Users** - Internal / External (Expected Usage Behaviour)

Hosting Options

Public Cloud

- Public, multi-tenant cloud hosted primarily on Google Cloud Platform (GCP)
- Fully managed by Kissflow
- Standard security & high availability
- Ideal for enterprises wanting a fully managed public cloud solution
- Indicative Pricing linked [here](#)

Dedicated Instance

- Dedicated, single-tenant instance hosted on GCP and managed by Kissflow
- Greater data and environment isolation than multitenant
- Client specific customization
- Control over future upgrades and enhancements
- Managed Services by Kissflow
- Ideal for enterprises requiring a managed private version of the platform
- Pricing - Custom - based on scope, scale, and customization requirements

Dedicated Instance on Customer Cloud A/c

- Single-tenant deployment in customer's VPC (AWS / Azure / GCP)
- Runs in customer cloud account (counts toward CSP commit)
- Full data residency & infra control
- No usage restrictions for use cases
- Full control over upgrades & customizations
- Ideal for Regulated, highly customized enterprise needs
- Pricing - Custom - based on scope, scale, and customization requirements

Public Cloud Hosting – Indicative Pricing – Usage/User/per month

Kissflow Platform Subscription (User/Usage classification and unit cost)			
Usage	Fair Usage Policy*	Description	User / month \$
Heavy	600+ Sessions	Logs into Kissflow every day and uses Kissflow heavily for one or more applications	£55
Regular	120 to 600 sessions	Logs into Kissflow every day and uses it lightly	£35
Lite	30 to 120 sessions	Logs into Kissflow a few times a week to initiate or approve requests across one or more apps	£15
Occasional	0 to 30 sessions	Logs into Kissflow a few times a month to initiate or approve requests across one or more apps	£5

Sessions are calculated at a “User” level on a quarterly basis. “Session” is a usage slot
Every 10 minute on the standard clock is considered as a single session
Idle time is not counted towards a session

*Thank
you!*
