Included in the price

All systems/licences are fully hosted solutions and include server hosting, maintenance and upgrades. No dedicated hardware/software needs to be provided by the client, just a web browser. There is only one version of the system, the portals, modules and card payment integrations. All system updates and maintenance are included in the price. Membership of our nationwide Governance & Traded Services network/community is also included.

A comprehensive customer success framework is also included in the annual licence incorporating the following:

- Knowledge Base - with detailed user guides and FAQ's
- Service Requests - helpdesk for client Administrators (30-minute response time)
- Success Meeting - Annual meetings with your Customer Success Manager
- Community Sessions - Live, weekly, podcast style, networking/support events
