ABOUT OUR PRICING

QEPA audit module pricing is based on whether the manual and / or the AI version is commissioned.
Your annual subscription includes everything you need to implement and use the QEPA audit module

Our pricing includes:

- Unlimited authorised users
- Implementation and onboarding
- User training
- Ongoing customer support
- Product updates and enhancements

HOW PRICING WORKS

Pricing is based on a number of variables, including numbers relating to EP statutory assessments (e.g. EHCPs maintained by the Local Authority), whether the LA is an existing Invision360 partner using one or more of the additional modules and the length of the contract.

A set annual cost is then applied, and this does not fluctuate, regardless of the number of users accessing the module / software or the number of individual plans audited.

QEPA Audit Module Cost
(Manual)

£10,000 - £15,000

QEPA Audit Module Cost
(AI version)

£18,000 - £25,000

Multi-year and multi-product discounts are available, giving Local Authorities better value where they commit for longer or use this module alongside other Invision360 products. All discounts are agreed transparently at the point of purchase.

HOW PRICING WORKS

Pricing is based on the number of active EHCPs maintained by the Local Authority at the point of purchase or renewal. This provides a clear and predictable annual cost regardless of the number of users accessing VITA or the number of individual plans drafted. If EHCP caseload changes during the contract term, pricing will not change until renewal.

Tier 1	Active EHCP Caseload	Annual Subscription
