

AIM Hosting and Support

1. Minimum 12-month commitment, billed annually in advance.
2. Up to 20 end points included. Additional end points can be purchased in blocks of 10.
 - a. LIVE environment System A to System B = 2 end points
 - b. TEST environment System A to System B = 2 end points
 - c. DEV environment System A to System B = 2 end points
3. Maximum of 5 GB storage include.
 - a. Storage is mainly consumed by log retention; data will typically not be retained within AIM other than in 'store and forward' configurations in the case when an end point is offline, and it is attempting retries. Increasing the frequency, retention period or logging detail can all increase storage consumption and are configurable settings which will be set during implementation discussions.
4. Max 20,000 messages/records per month. 1 new/updated record = 1 message/record
 - a. Storage and Messages can be increased.

Service	Monthly Fee
Annual AIM Hosting and Support (£1,000 per month)	£12,000

Optional: Additional Message, Storage, and End Point costs

Service	Monthly Fee
Additional 5GB of storage and 20,000 messages	£200
Block of 10 additional end points	£600

Connectors

Development of endpoint connectors is subject to requirements.
