

Training Services

Training Services: If you are looking for a Training Services partner to help you train your end users and your System Administrators in your Unit4 ERP solution, then our Training Services team can address your needs.

What is it?

This is the full range of training courses including Familiarisation, Build and Super Users courses provided by our in-house Training Services Team. Each course is accompanied by a comprehensive training guide for each delegate to keep and use as a reference guide in the office.

What services are included?

Our training services include eLearning, Face to Face Public and Private courses, Webinar based Public and Private courses and we can also offer bespoke courses designed around your own system to give a more personalised and engaging experience to your teams.

How to purchase

You can purchase training courses online on our website or by contacting our Customer Relationship Manager directly. The Customer Relationship Manager will gather the required information to provide a Statement of Work for sign-off. Once signed the courses will be booked and delegates will receive their training manuals and login details as necessary.
