support@xertoolkit.co.uk

Thankyou for your business!

A - Access to the Application

XER Limited provide following:

- Independent server accessible under new domain
- (e.g.)
- Fully managed by XER Limited including database backup routines.

If/ when our contract comes to an end and you choose not to renew, we would either pass the domain back to you or let it expire.

B – License Structure

The license structure would operate as described in the matrix below:

	Super Admins	Admin	Read Only Access
Create and assign user accounts	X		
Update top-menu access for users	X		
Import Projects		X	
Delete Projects		X	
Share Projects with other users		X	
View & Analyze Projects		X	X

C – License package included within up-front cost

Within the up-front cost, we have allowed for 1 x enterprise annual license package consisting of the following user-types:

- ## X Super Admin Licenses
- ## x Admin User Licenses
- ## x Read-Only Licenses

D – Additional licenses Price

If additional licenses are required during the term, they would be priced as follows:

1 x Admin (includes 5 x read only licenses) = £####/ year

E - Logo and Branding

All instances of the XER Toolkit logo would be replaced with the #### logo, and wherever branding colors appear, they would be changed in line with #### branding.

F – Technical Support & Demonstrations

- Technical support is included within the up-front cost and subsequent renewal costs.
- In addition to general technical support queries, we will additionally provide ## x 1 hour time slots that you can use either for demonstrations of the toolkit's capability, or we can provide specific technical support via teams/ zoom etc.

G – Subsequent Renewal Price

- The price to continue providing all the above for ## x additional year will be £####
- Future renewal beyond the initial ##-year period covered by the up-front cost and subsequent renewal will incur an annual inflation increase of either ##% or the UK CPI inflation rate, whichever is lower. Should UK inflation rate exceed ##% for ## consecutive years then XER Limited reserve the right to renegotiate.
- The renewal price is the same regardless of chosen domain option.
- You are under no obligation to renew your license beyond the initial year

H – Timescales to Go-Live

- From the point of purchase order received, we generally anticipate the go-live date for the server would be achieved within 2 weeks.

I – Server Location & Options

- By default, our dedicated server package as described in this document will be hosted on Amazon Web Services datacenters located in Ireland.
- We also provide the option to host in other countries around the world. For more information please visit:
<https://aws.amazon.com/about-aws/global-infrastructure/>
- There may be an additional charge for hosting on servers located in some countries.
- We can under certain circumstances provide the option for customers to self-host the application. This is not our preferred option as issue-resolution can often be delayed/ hampered due to the additional interaction required with external parties. If the option to self-host is required, then an additional fee of £####k/ annum will be applicable.

J – Single Sign On (SSO)

- We provide the option to integrate with your organisation's Single Sign On (SSO) system.
- There is no charge for integration with OKTA based SSO. A one-off configuration fee of £####k would be applicable for other systems.
