

Limbic Access Price Card

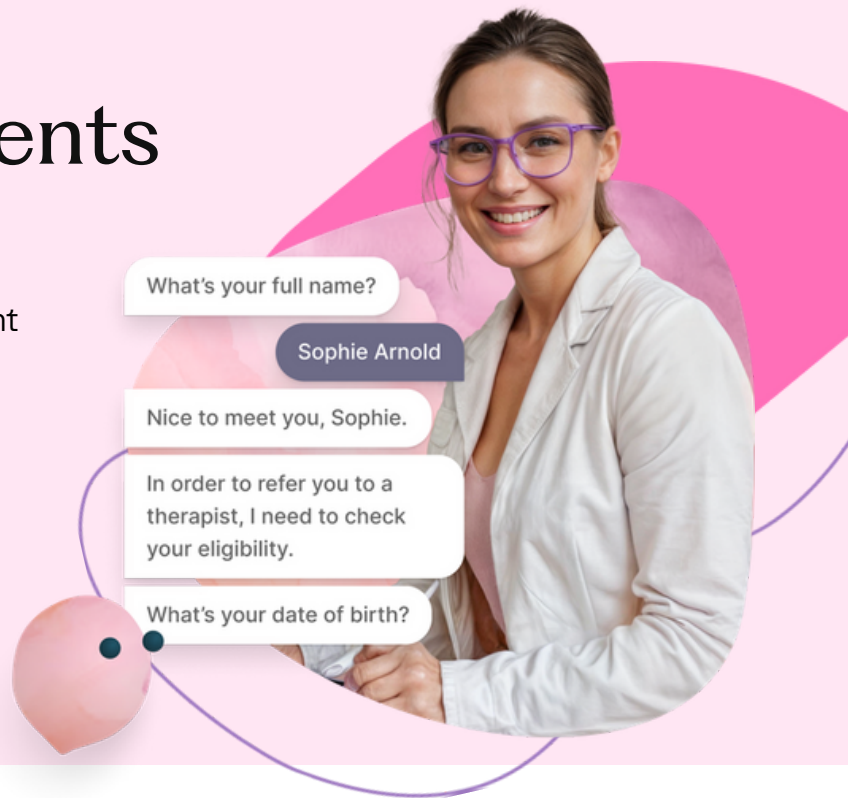

AI assistant for clinical assessments and diagnoses

Limbic Access is a conversational AI for patient intakes, triage, and clinical decision support.

It gives time back to your clinical and administrative staff —while dramatically improving patient outcomes.

Backed by years of published research and proven across hundreds of thousands of patients, Limbic Access is the most advanced clinical AI in mental healthcare.

Leverage clinical decision support

Each Limbic assessment provides a comprehensive view of the patient, including demographics and presenting problems. It also predicts diagnoses across a range of conditions, including depression, GAD, PTSD, and more.

Increase access

Offer a 24/7 intake pathway to meet patients when and where they want. Limbic Access leads to a 179% increase in non-binary patients accessing care, and 29% among racial minorities.

Reduce unsuitable referrals

Limbic identifies ineligible and unsuitable referrals so they are signposted to relevant support services. It releases significant clinical time while ensuring patients are receiving the appropriate care they need.

"Our clinicians are now better supported by the tools and systems they use. Every hour saved by Limbic Access means another hour can be spent providing treatment directly to the people we support."

Mona Stylianou
Clinical Director,
Everyturn Mental Health

Spend less time with your keyboard
and more time with patients.

Purchasing Limbic Access

What's included?

- ✓ Unlimited number of bot interactions.
- ✓ Creation and use of two bot formats—big bot and little bot—and up to three configuration changes to the bot a year.
- ✓ Integration with NHS Spine and your EHR provider, including PCMIS and iaptus.
- ✓ Automatic access to product updates including new conditions and improvements to diagnostic accuracy.
- ✓ Supported implementation with dedicated CSM.
- ✓ Ongoing data reporting and evaluation.

Pricing

No hidden costs and experience ROI across your intake, triage, and assessment processes.

- Limbic Access is priced using an annual software license fee, calculated based on the estimated total annualised referrals.
- Referrals can be purchased at a starting price of £5.49 per referral as part of a 24 month minimum contract.
- Minimum contract sizes are £35,000. p.a.

Referral Volume	Referral Price
1-5,000	£5.49
