

ANOMALY SIX

PRESENTS

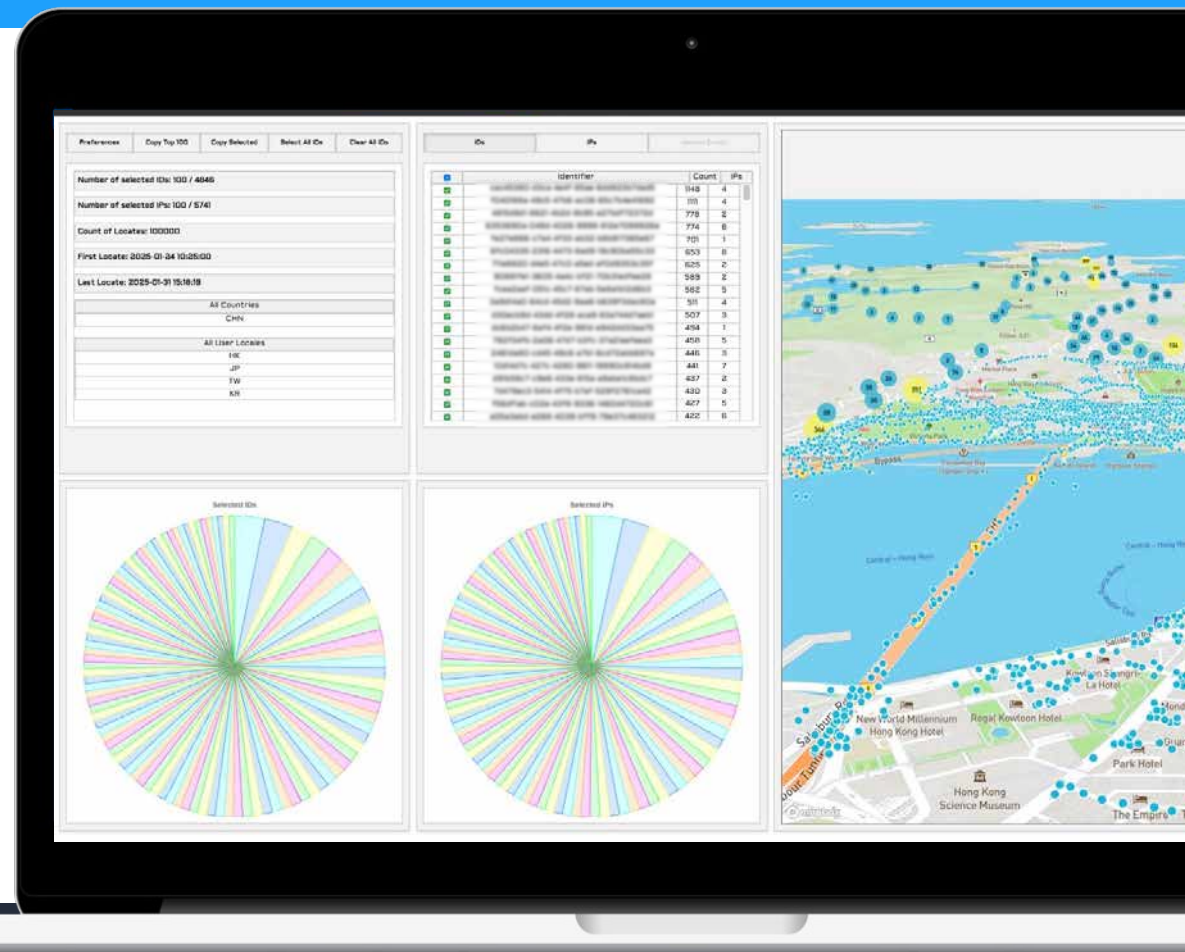

QueryBuilder

Powerful No-Code Queries
in a Fraction of the Time

Empower Your Analysts.
Simplify Your Searches.

Introducing QueryBuilder, the no-code solution
that puts SQL-like power in the hands of
seasoned analysts.

Whether you are exploring broad patterns or hunting
for specific data points, QueryBuilder eliminates the
need for complex coding—and the dependence on
data scientists—while unleashing unparalleled
precision and efficiency.

*“QueryBuilder has completely transformed our
workflow. What used to take days now takes minutes,
and our analysts feel empowered to tackle even the
most daunting data tasks themselves.”*

—SENIOR ANALYST, GLOBAL DEFENSE FIRM

*“QueryBuilder saved me days of work each week. I used to
run smaller queries manually, but now I can filter large
searches quickly, like narrowing 778 devices down to 5.”*

—TARGETING OFFICER, INTELLIGENCE COMMUNITY

KEY FEATURES

Built for Bold Questions—and Actionable Answers

QueryBuilder is designed to be...

Lightweight—and lightyears ahead.

Run powerful queries directly in
the warehouse without straining
your computer or network
resources.

The No-Code Prequel to SQL

Execute complex searches without
SQL or deep knowledge of A6
datasets—and save time on data-
heavy tasks.

Precise Location Data

Execute highly precise searches
using more than just timeframe or
location—tap into over 33 unique
fields for unparalleled accuracy.

Alternative Outputs

Optimize your results with
alternative formats, including
unique counts, distinct headers,
or rows of data.
