

## **Vnetrix Managed Web Application Firewall (WAF) Powered by Thales/Imperva**

### **About Vnetrix and the Managed WAF service**

Vnetrix was founded in 2002 as a pure play Managed Service Provider and is Vnetrix is ISO 27001:2022 and Cyber Essentials Plus certified.

Vnetrix is a Thales Imperva Silver partner and has worked with the Imperva WAF product for over 10 years using it to manage infrastructure that is hosted at Vnetrix as well as other data centres and organisations.

Using that knowledge and experience the Vnetrix team provide a fully managed service Imperva WAF solution from setup and implementation through to ongoing monitoring and management.

### **Why is our service unique?**

Vnetrix are able to offer the Thales/Imperva Cloud WAF fully managed service on a subscription basis with plans starting at 1Mbps protected bandwidth for one site. Overages apply.

This ensures that critical sites that may use less bandwidth have access to the enterprise level Imperva WAF solution even though their bandwidth requirements may be lower.

Vnetrix can aggregate the bandwidth usage across multiple web sites to provide maximum flexibility, all managed within a single portal.

The client has full access to the portal.

The number of sites managed and included bandwidth usage can be increased or decreased mid-term.

### **Example pricing scenarios below.**

**Scenario A: 1 website to protect**

**Scenario B: 3 websites to protect**

**Scenario C: 10 websites to protect**

For larger site and bandwidth requirements these can be quoted on request.

## Scenario A:

Client A has 1 website to protect and uses 1Mbps of bandwidth. Client requires normal business hours support and emergency 24x7 cover.

| Scenario A: Low bandwidth mission critical site |                                                                                                                                                                                                                                                                   | Monthly Charge              | One-Off Charge |
