

A Grants Management System

Purpose-Built for Grantmakers, by Grantmakers

MISSION

GivingData's mission is to advance philanthropic giving by creating software solutions that strengthen how funders work. As a team comprised of many individuals with experience in philanthropy, we work closely with private, family, and independent foundations to streamline their grantmaking processes and grow their impact.

GRANTS MANAGEMENT SOLUTIONS

Grantmakers are too often stuck with cumbersome processes, information siloed within departments, and data spread across many disparate systems. This doesn't just take away time that could be focused on grantmaking, it negatively impacts a foundation's ability to build strong, trust-based relationships with their nonprofit partners.

With GivingData, grantmakers can simplify complex workflows, improve the grantee experience and keep all interactions recorded in one place, eliminate data silos by making it readily accessible across the foundation, and accelerate the movement of grantmaking dollars as a result.

WHY GIVINGDATA?

Trust-Based Approach

GivingData's grants management system is purpose-built to assist grantmakers in practicing trust-based philanthropy.

Supports the Entire Foundation

Democratize access to data and get tools that assist the work of each staff member across the foundation, from Grants Managers and Program Officers to Senior Executives and Board Directors.

Best-in-Class User Experience

Easy-to-use interface, seamless data management, dashboards customized to each user, integrations that streamline work across systems, personal care & support from GivingData's team.

GIVINGDATA AT A GLANCE

Key Features

- Grantee Portal
- Grantee Relationship Management (GRM)
- Grantee Interaction Reports
- Monitoring, Evaluation, and Learning (MEL)
- Scenario Planning
- Reviewer & Board Portal
- Integrations

Benefits

- Built for Trust-Based Philanthropy
- Seamless Implementation
- No Tech Experience Required

GivingData has been great about adapting and evolving with the field of grants management.

Richelle Pittella, Conrad N. Hilton Foundation

GivingData has allowed us to be much more focused on our impact and grantee relationships.

Chris Woodruff, Greater Texas Foundation
