G-Cloud Pricing document Configuration Migration

The Service

Samkit's **Configuration Migration** is a software tool designed for organisations using **Oracle ERP Cloud (Fusion)** to maintain consistency, minimise errors and, enhance audits, upgrades and implementations.

The tool extracts all configurations from a selected entity and import the same to another entity ensuring the organisation maintains consistency in their various ERP setups.

The tool operates using **read-write access** to Oracle ERP Cloud and does not store customer information outside the customer's environment.

Pricing Model

Configuration Migration is licensed on a **per-user, per-month basis**, invoiced **annually in advance**.

The service is subject to a **minimum user commitment**. Pricing is exclusive of VAT.
